Issue raised/ comment	Response
How will the community benefit?	When fully operational, the project wilol employ workers. The EMP outlines that local preference should be considered during the recruitment process. The proponent will have to adhere to that commitment in the EMP
When will you begin with the operations.	Currently we are only busy with the EIA. Once and if the EIA Application is approved then the proponent will have to source funds through investor in order to form a partnership and execute the exploration activities.
Thank you for your time and for sharing this information with us.	Thank you for attending sir.
So many people come around here, giving presentations and telling us all sorts of things but their projects never commence. How is this one different?	There are so many processes and feasibility studies that need to be conducted before a project actually kicks off such as technicalities of the project. At times, it can take even years due to other reasons such as budget limitations and other various shortfalls. However, the key aspect is that the EIA is being conducted which is a step forward, we should take positives in that.

3 CLOSE

IK thanked everyone for attending the meeting and encouraged those with more questions to ask them after the meeting or forward them to I.N.K as per the details provided. He closed the meeting.
