ERONGO RED

NOTICE OF POWER OUTAGE SWAKOPMUND AND ROSSMUND

Notice is hereby given that the electricity supply will be interrupted on the following date:

JANUARY 2025						
M	T	W	T	F	S	S
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31		

DATE: 26 January 2025
DAY: Sunday
TIME: 07:00 - 19:00

This outage will affect the following areas:

- Entire Swakopmund
- Rossmund Lodge & Golf Estate
- Telecom/TN Mobile
- MTC

The reason for the outage is for NAMPOWER to do conductor stringing over the existing lines to the newly installed monopole and string the Sekelduin line over the dual carriage road.

PLEASE NOTE:
YOUR INSTALLATION MUST BE REGARDED AS "LIVE" AT ALL TIMES AS THE POWER SUPPLY MAY BE SWITCHED ON AT ANY TIME DURING THE ABOVE MENTIONED PERIOD.

ERONGO RED

TENDERS

Erongo RED invites tenders for the following tender:

TENDER NUMBER: 18/2024

SUPPLY AND DELIVERY OF 11KV AIR INSULATED, AS WELL AS COMPACT SWITCHGEAR AND 11KV RING MAIN UNITS TO ERONGO RED STORES FOR A (3) THREE YEAR PERIOD.

GENERAL INFORMATION

Erongo RED is under no obligation to accept any tender whether the tender is or not. Erongo RED reserves the right to accept the full tender or only part of it. Erongo RED is not under obligation to assign any reason for acceptance or rejection of a tender.

Documents, in a sealed envelope clearly marked with the tender number (e.g. Tender 18/2024) should be sent to the Chairperson of the Tender Committee, 81 Bayside Street, Walvis Bay, Namibia. Mark the envelope with the Tender number and the Tender Committee, P.O. Box 2025, Walvis Bay, Namibia. The deadline for Friday, 07 February 2025 at 10:00 am.

MANDATORY DOCUMENT REQUIREMENTS:

Regulatory documents: A. Copy of the latest company registration certificate including certificate for change of name if applicable; B. ID of owner or shareholders, and directors; C. Valid good standing Certificate with the Director of Revenue and the National Security Commission; D. Further mandatory documents and requirements will be stipulated in the tender documents.

Please note that no hard or e-mailed documents, nor documents received after the specified closing date and time will be considered for evaluation.

ENQUIRIES

Enquiries: Mrs. Anna S. Giesche
 Document Fee: N\$ 304.00 (Non-refundable)
 Email Address: anna@erongo.gov.na
 Telephone: +264 020 - 351 9056

Compulsory Tender Clarification Meeting: 22 January 2025
 Time: 10:00 am (N\$ Time - UTC)

No tender deposited after the closing date and time will be considered for evaluation.

The tender is open for tenders to ensure that tenders are submitted in the appropriate tender box before the closing date and time.

No tender or variation received by email or fax will be considered unless the tender document specifically provides for it.

All requests for clarifications must be submitted in writing to the designated tender information person(s) stated in the tender documents at least 7 (seven) days before the tender closing date.

The goal of preparation of this tender is to supply electricity to the tender.

CLOSING DATE:
10:00 am on Friday, 07 February 2025.

Water Interruptions Hit Kuisebmond and Industrial Area

Eileen van der Schyf

Residents and businesses in Walvis Bay faced multiple water supply interruptions over the past week due to unforeseen pipe breaks in Kuisebmond and the Industrial Area.

On Sunday, a pipe-break in Sandwich Street disrupted water supply to several parts of Kuisebmond, including Diamond Street, Sandwich Street, Old Kuisebmond, Setpoint, and the Kumboni area. Initially, the Municipality of Walvis Bay estimated the restoration time at 16:00, but delays pushed it to 20:00.

Two days later, another notice from the municipality revealed additional water interruptions in Kuisebmond,

affecting more areas than initially reported. This time, repairs were completed by late evening after teams worked diligently to restore the supply.

On Monday, a pipe-break at 11th Street East caused a significant disruption to water supply in the Industrial Area. Businesses in the area faced a full day of limited operations as the restoration time was extended to 20:00 due to the complexity of the repairs.

In each case, the Municipality of Walvis Bay issued timely public notices to keep residents informed and apologised for the inconvenience caused by these disruptions.

Despite the setbacks, the municipality's repair teams were commended for their prompt response in addressing the pipe breaks. These interruptions have raised concerns about the aging water infrastructure and the need for long-term solutions to prevent recurring issues.

Coastal Hospitals Celebrate Christmas and New Year's Babies

Eileen van der Schyf

The festive season brought extra joy to families at the coast, with a total of eight Christmas Day babies and 15 New Year's Day arrivals born at hospitals in Swakopmund and Walvis Bay.

On Christmas Day, five babies were born at the Swakopmund State Hospital, with the first arrival being a baby girl born at 5:18, weighing 3.39kg. The final Christmas baby was delivered at 19:55, weighing 2.37kg. Meanwhile, three babies made their debut at Walvis Bay State Hospital, with the first arriving at 2:39, weighing 2.7kg, while baby Precious, born at 22:25, required special care in an incubator. Mediclinic Swakopmund and Welwitsch Hospital recorded no Christmas births.

New Year's Day saw a flurry of activity in Walvis Bay and Swakopmund.

Walvis Bay State Hospital: Nine babies were born, starting with a baby girl delivered at 6:22, weighing 3kg. The heaviest baby, a boy weighing 4.22kg, was born at Welwitsch Hospital. A nurse

at the Walvis Bay State Hospital said, "we always hope for these special arrivals. They make the holidays even more meaningful."

Swakopmund State Hospital: Three babies were welcomed, including a baby boy at 6:46, weighing 3.57kg, and a baby boy at 23:28, weighing 2.79kg. A fourth baby, a girl weighing 3.94kg, was born at Mediclinic Swakopmund at 12:10.

EMAIL ADDRESS: walesnd@gmail.com

NOTICE ON THE ENVIRONMENTAL IMPACT ASSESSMENT FOR MINING ACTIVITIES (MINING CLAIMS No. 75069, 75070, 75071, 75072, 75073 & 75074)

Notice is hereby placed to inform all potentially Interested and Affected Parties (I & APs) that an application for Environmental Clearance Certificate will be made to the Ministry of Environment Forestry and Tourism, in line with the provisions of Environmental Management Act 7 of 2007 and its Regulations of 2012. This is in respect of the envisaged mining activities for Industrial Minerals. All Interested and Affected Parties (I & APs) are invited to register, request background information document and submit inputs. Request for participants must be done on or before 13th January 2024. A public consultation date will communicate at a later stage to all stakeholders, I & APs.

Project Location: The MC No. 75069, 75070, 75071, 75072, 75073 and 75074 is located south of Henties Bay town within a circa 15KM

Consultant: SS Consultants CC
Proponent: Mr. Kuunalenga Kristof Tangeni Avia
A: Ms. Uaanao Katjinjaa
T: +264 81 240 9124
E: UKatjinjaa@ssconsultants.co

APPENDIX D: CONFIRMATION OF SCREENING NOTICE RECEIVED

5/20/25, 11:04 PM

Your application is verified - SS Consultants - Outlook

Your application is verified

From Ministry of Environment and Tourism <noreply@meft.gov.na>

Date Thu 12/19/2024 7:09 AM

To SS Consultants <info@ssconsultants.co>

**REPUBLIC OF NAMIBIA**

Ministry of Environment, Forestry & Tourism

2024-12-19

Dear Silvanus Shigwedha,

This email serves to inform you that your application **APP-005078** has been verified

Taking the following into considerations:

- Location of the project
- Pollution potential
- Scale of operation of the project

Please upload the following documents:

- Scoping Report
- EMP
- Consent letter or support doc from relevant Authority
- Proof of Consultation (Minutes, Newspaper adverts, etc)
- Confirmation of screening notice received (through email) in terms of assessment procedures (Section 35 (1)(a)(b) of the Environmental Management Act, No 7 of 2007)
- Preliminary Site Map with coordinates (decimal degrees) and a Legend
- CV of Environmental Assessment Practitioner (EAP)

5/20/25, 11:04 PM

Your application is verified - SS Consultants - Outlook

- Consent from the National Heritage Council for protection of archaeological artefacts, paleontological and rare geological specimens, meteorites and any other object which holds cultural significance
- Declaration for the Submission of Assessment Reports and other Support Documents (upload Declaration Form from www.eia.meft.gov.na (downloads)

Please login onto our portal to upload required documents, if any
<https://eia.met.gov.na>

NB- for the purpose of Section 38 of the Environmental Management Act, 2007 read with Regulation 4(d), kindly forward copies of all relevant documents i.e (application forms, EIA, Scoping reports, EMP etc) to the office of the Environmental Commissioner

Thank you

Phillip Troskie Bulding
P/Bag 13306, Windhoek | Tel: +264 61 284 2111 | DEA: +264 61 284 2701

Please do not reply directly to this email. It was sent from an unattended mailbox.
Correspondences can be done on the portal or please use

APPENDIX E: PRELIMINARY SITE MAP

APPENDIX F: CV OF THE RESPONSIBLE ENVIRONMENTAL ASSESSMENT
PRACTITIONER (EAP) – (UAANAO KATJINJAA)

APPENDIX G: CONSENT FROM THE NATIONAL HERITAGE COUNCIL

APPENDIX H: DECLARATION FOR THE SUBMISSION OF ASSESSMENT REPORTS

APPENDIX I: BACKGROUND INFORMATION DOCUMENT (BID)

SS CONSULTANTS

BACKGROUND INFORMATION DOCUMENT (BID)

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED BASE AND RARE METALS, DIMENSION STONE, INDUSTRIAL MINERALS AND PRECIOUS METALS EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE NO.9490.

MILE 108 DISTRICT, ERONGO REGION, NAMIBIA

PUBLIC INVITATION TO REGISTER AND COMMENT

PURPOSE OF DOCUMENT

The purpose of Background Information Document (BID), is to provide basic detailed information about the proposed listed activities and is to be shared with all registered potential interested and Affected Parties (I&APs) before public consultation as part of the EIA process. Furthermore, the BID aims to outline the EIA process and methods of public consultation approaches to be followed.

Hence, BID aim to provide:

- An overview of the proposed mineral exploration activities on EPL No.9490 for base and rare metals, dimension stone, industrial minerals and precious metals;
- An overview of the Environmental Impact Assessment process; and
- Guidance on how members of public can participate in the process as Interested and Affected Parties (I&APs).

I&APs comments and concerns are vital to the success of the EIA process and potential public members are encouraged to register and participate.

Please register / complete registration form and submit to SS Consultants CC on or before the **13th of January 2024**.

Attention : Ms. Uaanao Katjinjaa

Address: Unit 248, Bougain Villa, Sam Nuuyoma Road, Windhoek, Namibia

INTRODUCTION

SS CONSULTANTS CC (hereafter referred to as the Consultant), an independent mineral resource and environmental consulting company has been appointed by **Albertina Itana** (herein referred to as the Proponent) to undertake an environmental assessment process and obtain an environmental clearance certificate from the Environmental Commissioner on behalf of the latter for the proposed mineral exploration activities on **EPL No. 9490**.

The proposed exploration activities fall in the listed activities under the Environmental Management Act 7 of 2007 – activities which may not be undertaken without Environmental Clearance Certificate. Hence the proponent is expected to obtain an Environmental Clearance Certificate from the Environmental Commissioner prior to the commencing of these exploration activities.

The proposed development is therefore related to the specific listed activities as outline by relevant sections in EMA Regulations of 2012:

- *Construction of facilities for any process or activities which requires a license, right or other form of authorization, and the renewal of a license, right or other form of authorization, in terms of the Minerals (Prospecting and Mining Act), 1992 (Section 3.1);*
- *Other forms of mining or extraction of any natural resources whether regulated by law or not (Section 3.2);*
- *Resource extraction, manipulation, conservation, and related activities (Section 3.3);*
- *Abstraction of ground or surface water for industrial or commercial purposes (Section 8.1).*
- *Manufacturing, storage, handling, or processing of a hazardous substance defined in the Hazardous Substances Ordinance, 1974 (Section 9.1).*
- *Any process or activity which requires (Section 9.2).*

1. Project Description

The Exclusive Prospecting License (EPL) 9490 was applied for by **Albertina Itana** on the 30th May 2023, respectively, and a notice of preparedness to grant prospecting license was presented by the Ministry of Mines and Energy (MME). To execute any exploration activities within EPL 9490, it is a requirement under the Environmental Management Act (EMA) (2017) and its 2012 EIA Regulations that the proponent obtains an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs (DEA) of the Ministry of Environment, Forestry and Tourism (MEFT). The ECC will enable the license owner to conduct exploration activities for base and rare metals, dimension stone, industrial minerals and precious metals. The project area is made up of one EPL license; if commercially viable mineral deposits are found and all necessary licencing requirements are satisfied, the licence may be converted into one or more mining licences. The proposed exploration activities will involve both non-invasive and invasive exploration methods. Non-invasive exploration methods usually include remote sensing, geological field mapping, ground geophysical survey and surface soil and rock sampling whereas invasive exploration methods include techniques such as reverse circulation or diamond drilling and pitting/trenching. During the process, non-invasive exploration activities will be undertaken first to define the need for more invasive activities. Should the results from the non-invasive activities be positive, the detailed site-specific drilling, trenching, and sampling will be undertaken. The project area is situated within well-developed infrastructure such as access to water, power line, national roads, and telephonic network. Thus, the applicant will make use of the available water and electrical infrastructure in the area. Utilization of these infrastructure will depend on the agreement reached with other landowners and or community members and all the necessary permits and requirements will be obtained from the relevant authorities. The design of the exploration process is such that, various geological consultants and contractors will be engaged at different stages to allow effective implementation of the proposed exploration activities. Additionally, a geophysics expert may be contracted to conduct geophysical surveys. These surveys will be conducted where necessary to detect and assess different geological features, including mineralization, within the EPL area. Drilling operations will be carried out by a registered drilling contractor, and they are expected to provide their own drilling crew. Moreover, the exploration activities on EPL No. 9490 have the potential to establish and operate a mineral exploration program, leading to direct permanent employment opportunities and indirect job creation in supporting services. By virtue, these activities also hold the promise of discovering economically valuable ore deposits, which, through mineral extraction, can contribute to employment, wealth generation, and economic development in the country. The attractive wages offered by the new project are expected to benefit the local workforce, thereby boosting economic growth in the Tsiseb Conservancy, Henties Bay, surrounding towns, and the country at large. The nearest populated towns are Henties Bay, Uis, Arandis, Swakopmund and Walvis Bay from which unskilled labour can be sourced from. It is anticipated that the workforce will be housed in temporary site camps or may reside in the nearest towns throughout the exploration program.

2. Project Location

The EPL No.9490 is located north of Henties Bay town within a circa 105 KM and west of Brandberg Mountain about 57 km. The project areas cover areas of 16,636.1251 hectares (Ha) it is demarcated by six corner coordinates and sits on state land *Figure 1 and 2* below.

Figure 1: Locality map showing the location and road networks covering project area.

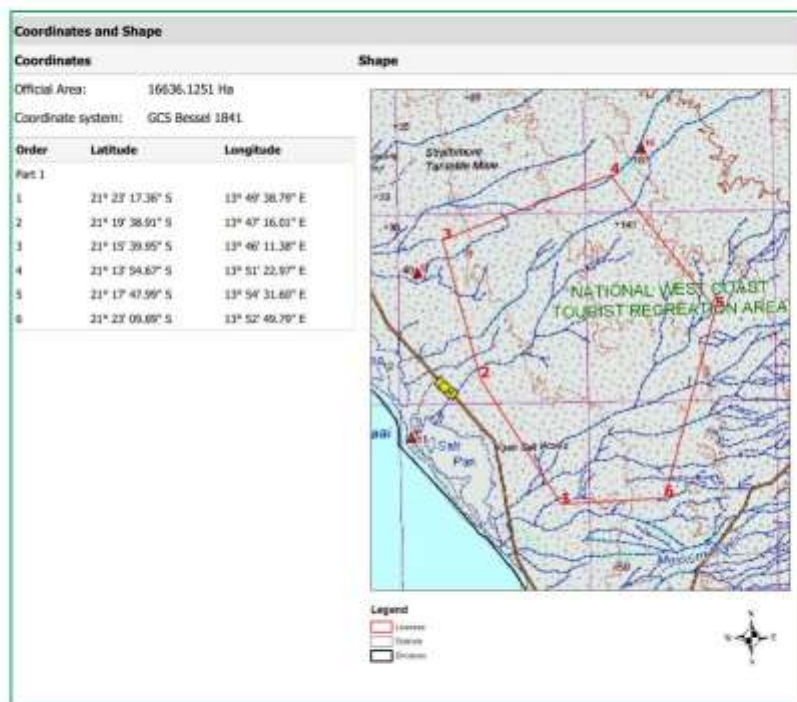

Figure 2: Map with corner coordinates and shape of project areas.

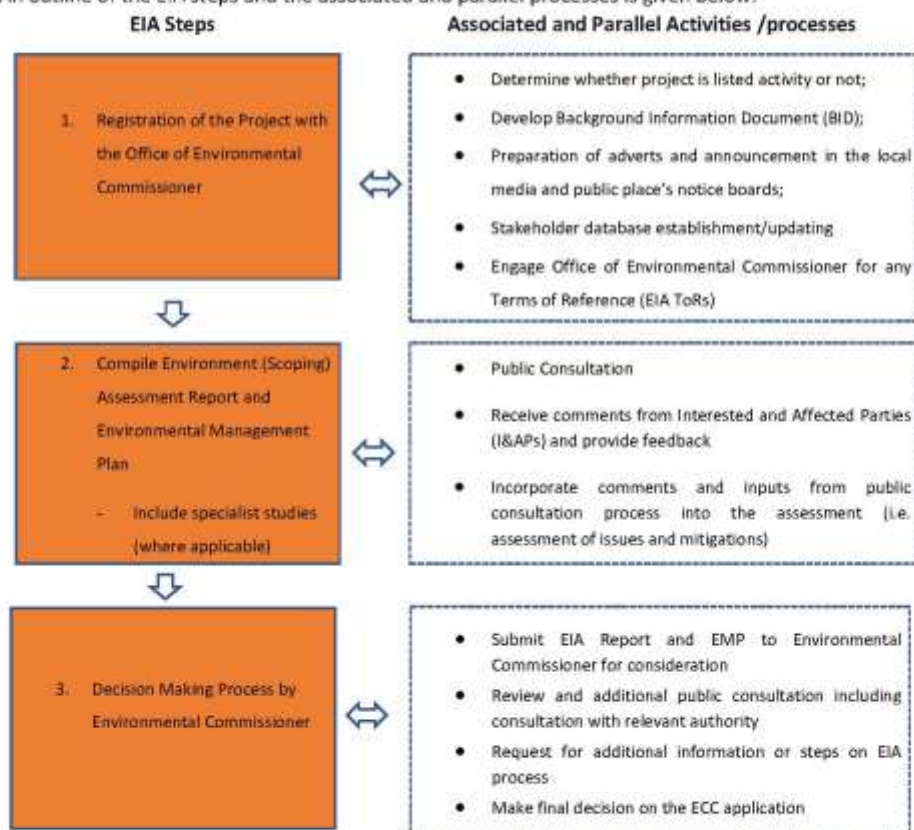

3. Legal Requirements

Apart from the Environmental Management Act, the project will also be guided and comply to the following national regulatory requirements:

- Water Act 54 of 1956 (including Water Resource Management Act 11 of 2013 – not yet in force)
- National Heritage Act 27 of 2004
- Mineral (Prospecting and Mining) Act 33 of 1992
- Forest Act 12 of 2001
- Agricultural (Commercial) Land Reform Act 6 of 1995 (including relevant amendments)
- Labour Act 11 of 2007
- Nature Conservation Ordinance 4 of 1975 (including relevant amendments)

4. Environmental Impact Assessment process

The EIA process follows the general guideline as outlined in the EMA Regulations of February 2012. An outline of the EIA steps and the associated and parallel processes is given below:

N.B: Once the Environmental Commissioner makes a decision on the application whether in favour of the proponent or not, the Environmental Management Act as guided by its Regulations also provide

for the process of Appeal. Therefore I&APs if not satisfied with the decision made, will still have an opportunity to raise their concern on the decision.

5. Potential Impacts

Below are the potential impacts that have been identified from the proposed exploration activities on the license area:

- **Temporary job creation** this is the hiring of workers non-skilled to skilled workers from the area to be involved during the clearing of the fauna and flora in order to access target sites, and to also assist during pitting and trenching as well as drilling and associated exploration works.
- **Impact on vegetation and fauna** some vegetation may need to be removed to create access roads, pitting and trenching, geophysical lines as well as drilling sites. This may also lead to habitat destruction for some fauna.
- **Traffic safety** very slow drilling rigs and associated vehicles may compromise traffic safety in the area.
- **Environmental degradation** through different types of waste generated on the site.
- **Soil and water contamination** from chemicals and other substances used in drilling fluids.
- **Noise and dust** generated by pitting and trenching as well as drilling vehicles and activities.
- **Health and safety risks** which may result to workers operating on site.

6. Public consultation

Public participation is an essential part of any Environmental Assessment process. Interested and Affected Parties (I&APs) include any person or organization that will be directly or indirectly involved and/or affected by the project.

Registered I&APs will be kept informed of the Public Participation Process throughout the Environmental Assessment process, they will be given the opportunity to review and comment on the EIA reports and documents and, will also receive feedback on how comments have been considered, and will be informed of the outcome of the assessment. All comments will be recorded and presented to the project team and competent authority by means of the Project Comments and Responses Register (CRR).

Notices for public invitation to participate in the process will still be placed in the local newspaper as well as at strategic public places (notice boards). The date and venue for the public consultation meeting will be communicated.

If you categorize yourself as an I&AP who wishes to receive information regarding the above-mentioned project and/or provide input into the Environmental Impact Assessment process, you are hereby invited to register using the form on Page 6. You may also communicate with SS Consultants via email, or telephone to obtain further information or comment on the proposed project.
