

5. APPENDIX D: PROOF OF CONSULTATION (MINUTES, NEWSPAPER ADVERTS)

20 November 2025

PUBLIC CONSULTATION MEETING MINUTES:

PROJECT: Environmental Scoping Assessment (ESA) for Proposed Exploration Activities on Exclusive Prospecting License (EPL) No. 9836 located of in the Otjozondjupa region, Namibia.

Date: 30 October 2025, Thursday

Time: 11:00

Venue: Khoi-Khoi Guesthouse, Otavi

Four people attended the public consultation meeting, including Environmental Consultants (Mr. Mandume Leonard and Ms. Vistolina Augustus) and an Archaeologist (Ms. Loide Shipingana) from Excel Dynamic Solutions (Pty) Ltd (EDS).

Supplementary farm-to-farm visits were also made to engage with absent farmers. Additionally, telephone communications were used to further interact with stakeholders who were unable to attend in person.

These minutes encompass feedback and discussions gathered from both the Khoi-Khoi Guesthouse meeting and subsequent farm visits, as well as insights shared through phone conversations.

Please refer to the attached attendance register for a complete list of attendees.

1. INTRODUCTION AND WELCOMING REMARKS

The Environmental Consultant (Ms. Vistolina) began the meeting by introducing the team and explaining the purpose of the consultation, which was to engage Interested and Affected Parties (I&APs) about the proposed prospecting and exploration activities within **EPL 9836**.

An attendance register was then circulated among the attendees, enabling them to register their names and contact details, which would be used to maintain communication and provide updates on the Environmental Impact Assessment (EIA) process.

2. MEETING AGENDA AND PRESENTATION

The agenda of the meeting included the following main points:

2.1 Brief Description of the Project

Ms. Vistolina provided the attendees with an overview of the ESA process, citing relevant legislations such as the Environmental Management Act and its 2012 EIA Regulations on Public Consultation. He then explained the significance of obtaining an Environmental Clearance Certificate (ECC) for the proposed project, emphasizing the attendee's crucial role in contributing to the ESA process by offering their insights and feedback regarding the potential environmental, social, and economic impacts of the proposed project.

2.2 Presentation of Potential Project Impacts

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts.

2.3 Public Open Discussion (Interactive Session)

Ms. Vistolina allowed the meeting attendees to raise their concerns, issues, and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in Table 1 below.

Table 1: Comments and issues raised during the public consultation meeting

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
1.	Could you clarify the purpose of the coordinates mentioned in the Background Information document?	Ms. Vistolina Augustus (VA): Those coordinates define the boundary corners of the Exclusive Prospecting License (EPL) area.
2.	In the event of a fire, will the EPL holder be held responsible for the damages, including the loss of cattle feed, and be liable for compensation?	(VA): Yes, if a fire breaks out due to the EPL holder's prospecting activities, they would generally be responsible for the damages caused, including any loss of cattle feed and should be explicitly stated in the contract agreement.
3.	When should we expect to receive and sign the access agreement with the Proponent?	Mandume Leonard (ML): The access agreement will be shared before any on-site exploration activities. Stakeholders will have the opportunity to review the agreement, seek clarification, and, if necessary, obtain legal advice before signing. Once the Proponent has received the Environmental Clearance Certificate, they will begin drafting the access agreement, which will then be sent to you for review. You will have the opportunity to review and provide any necessary feedback or additional conditions to ensure that the agreement reflects your interests and concerns. After these discussions, the agreement will be finalized and executed prior to the commencement of any exploration activities on your farms.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
4.	During prospecting, all prospectors entering the farm must provide their ID's and code of conduct certificates.	ML: It should be stated in the land access agreement to ensure compliance.
5.	What are they prospecting for?	ML: The proposed mineral exploration activities are Dimension Stones, Base and Rare metals, Industrial Minerals and Precious Metals.
6.	Who is the owner of the EPL?	ML: The EPL is owned by Mr. Johannes Gideon Erika Sunday.
7.	What are the next steps?	ML: It will be to do the assessment process, which involves surveying and studying the flora, fauna, and cultural sites within the area. This will help them identify any potential environmental or cultural impacts associated with the exploration activities, and determine any necessary mitigation measures.

FINAL REMARKS AND CONCLUSION OF THE MEETING

Ms. Vistolina thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Ms. Vistolina informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

Employment

Offered

VACANCY FOR A SPECIALIZED GEOTECHNICAL ROTARY CORE DRILLER

Insitu Testing & Drilling Contractor is an equal opportunity provider. We are seeking a highly skilled **Specialized Geotechnical Rotary Core Driller** to join our dynamic team. The ideal candidate will have extensive experience in geotechnical drilling, particularly in rotary core drilling operations, and a strong understanding of geological formations and sampling techniques.

Key Responsibilities:

- Proven experience as a Geotechnical Rotary Core Driller with proven knowledge and experience in associated geotechnical testing, SPT Testing, Shelby tube sampling
- Knowledge of drilling techniques, soil and rock formations, and sampling procedures.
- Ability to read and interpret drilling logs, plans, and technical reports.
- Strong understanding of occupational health and safety regulations.
- Ability to work in remote locations and under challenging conditions.
- Valid driver's license, additional certifications in drilling operations will be an added advantage.

Location: Namibia

Application Deadline: 14 February 2025

How to Apply: Interested candidates should submit their CV that outline their experience and supporting documents to **tech@insitudrilling.com.na** with the subject line "Geotechnical Rotary Core Driller Application". Email: **tech@insitudrilling.com.na**

INSITU TESTING & DRILLING CONTRACTORS

WILLARD PHYSIOTHERAPY Join Our Team!

We're seeking experienced Physiotherapists to join our dynamic team!

Positions Available:

VACANCY:

Seeking a Married Couple for Remote **BLUEBERRY FARM** Roles

We have two key positions available for a married couple willing to live and work in a remote setting:
Head of Blueberry Agricultural Technology
Leverage AI, precision irrigation, and data analytics to boost blueberry yields and sustainability.

Responsibilities:

- Develop and implement tech-driven strategies.
- Oversee irrigation systems for efficiency.
- Integrate AI and data analytics for improved performance.
- Lead and mentor agricultural teams.
- Ensure compliance, sustainability, and budget management.

Requirements:

- 8–15 years in agricultural tech (blueberry/fruit experience preferred).
- Expertise in irrigation, data management, and AI.
- Proven leadership and problem-solving abilities.
- Relevant tertiary education in agriculture or related field.
- Procurement & Office Manager (Blueberry Farm)
- Oversee procurement of supplies/services, vendor negotiations, and office operations.
- Manage blueberry export/import processes and ensure regulatory compliance.
- Maintain records and collaborate with teams for seamless operations.

Requirements:

- 6+ years in procurement/office management (agriculture preferred).
- Experience with export/import documentation.
- Proficiency in advanced Excel.
- Strong negotiation, organizational, and problem-solving skills.
- High integrity and confidentiality.

Kindly submit CV to:
hello@namibibiberries.com
before **28 February 2024**.

'Worst'...
Ademola Lookman
Photo: Getty Images

Gasperini blasts Lookman for missing penalty

Atalanta coach Gian Piero Gasperini said his striker Ademola Lookman is “one of the worst penalty-takers he has ever seen” after his miss from the spot hindered a comeback in their home 3-1 defeat to Club Brugge in the Champions League.

Lookman pulled back one goal early in the second half after Brugge took a 3-0 halftime lead, but then had a penalty saved by goalkeeper Simon Mignolet, as the Serie A side were knocked out with a 5-2 aggregate defeat.

Gasperini singled out the Nigeria international for criticism, adding offensive midfielder Charles de Ketelaere or striker Mateo Retegui should have taken the penalty instead.

“Lookman was not supposed to take that penalty, he is one of the worst penalty-takers I’ve ever seen. He has a frankly terrible record, even in training, he converts very few of them.

Retegui and De Ketelaere were there, but Lookman at a moment of enthusiasm after scoring decided to take the ball, and that was a gesture I did not appreciate at all,” the Italian manager told a post-match press conference.

Gasperini also criticised Atalanta captain Rafael Toloi, who was shown a straight red card for a shove on Maxim de Cuyper after an argument over a throw-in.

“That was an ugly incident, and we must never lose our heads. Atalanta must leave the Champions League with dignity, having played great games against the likes of Real Madrid, Arsenal and Barcelona,” he said.

Atalanta, third in Serie A, became the second Italian side to exit the Champions League, following AC Milan, who drew 1-1 with Feyenoord, losing 2-1 on aggregate.

OFFICE OF THE DIRECTOR

APPLICATION FOR CONSENT

(Sections 53(7) and 55(8) of the National Heritage Act, 2004 (Act No.27 of 2004))

CONDITIONS AND INSTRUCTIONS

1. The receipt issued serves as a reference when making enquiries.
2. Works and activities applied for under section C, of this application, is subject to an environmental impact assessment at the applicant's expense.
3. Instructions for completion:

Applicants must complete the relevant parts of this application.

A. APPLICANT'S DETAILS

1. Name and address of applicant

Contact Person: Johannes Gibeon Erica

P. O. Box 7039, Kuisebmud, Namibia

Telephone: +264 812741144

Email: sundayerika@gmail.com

2. Full name and designation of the person in charge of undertaking the works or activities:

Projector Developer: Johannes Gibeon Erica

3. Full name and personal details of researcher, contractor or person in charge of the proposed works or activities:

NKOSANA HLABANGANA
0814650075 / 0852650075

hlabanganankosana@gmail.com

4. Academic qualifications, skills, occupation and competencies of the person in charge mentioned under A2 above.

BACHELOR OF ARTS ARCHAEOLOGY, CULTURAL HERITAGE AND MUSEUM STUDIES
(HONS) –MIDLANDS STATE UNIVERSITY

5. Previous permits issued in Namibia:

NONE

6. Period for which permit is required: From

to

7. Date by which permit is required:

B: WORKS OR ACTIVITIES

15. Geographic location and address (farm, village, settlement, town, region, magisterial district, constituency, Global Positioning System coordinates) of the site, protected place or protected object where works or activities are proposed:

EPL 9836 is located about 10km South West of Otavi

20 Government Gazette 1 September 2005 No. 3490

16. Detailed description of the nature of works or activities for which the permit is applied for: (e.g. excavation, construction, filming etc) (*Attach additional and supporting information if the space on the form is insufficient.*)

EXPLORATION

C: UNDERTAKING BY APPLICANT

17. I Mr. Johannes Gibeon Erica __ (the person in charge of undertaking the works or activities) and (where applicable) being representative of the N/A

hereby undertake to strictly observe the terms and conditions under which the National Heritage Council may issue the permit.

Signature  dated 13/01/2026

Consent No.
(Consecutive number & year of issue)

ARCHAEOLOGICAL AND HERITAGE IMPACT ASSESSMENT REPORT

HERITAGE IMPACT ASSESSMENT FOR THE PROPOSED BASE AND RARE METALS, DIMENSION STONES, INDUSTRIAL MINERALS AND PRECIOUS METALS EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE NO.9836 LOCATED SOUTHWEST OF OTAVI IN THE OTJOZONDJUPA REGION, NAMIBIA

Compiled by:

Excel Dynamics Solutions (Pty) Ltd

Prepared for:
Johannes Gideon Erika Sunday
As required under Section 53 (7) and Section 54 (7) of the National Heritage Act (No. 27 of 2004).

10. APPENDIX I: BACKGROUND INFORMATION DOCUMENT (BID)

BACKGROUND INFORMATION DOCUMENT (BID)

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED DIMENSION STONE, BASE AND RARE METALS, INDUSTRIAL MINERALS, AND PRECIOUS METALS EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING LICENSE (EPL) No.9836 OTAVI, OTJOZONDJUPA REGION, NAMIBIA

PUBLIC INVITATION TO REGISTER AND COMMENT

PURPOSE OF DOCUMENT

The purpose of Background Information Document (BID), is to provide basic detailed information about the proposed listed activities and is to be shared with all registered potential Interested and Affected Parties (I&APs) before public consultation as part of the EIA process. Furthermore, the BID aims to outline the EIA process and methods of public consultations approaches to be followed.

Hence, the BID aims to provide:

- An overview of the proposed mineral exploration activities on **EPL No.9836 for dimensions stone, base and rare metals, industrial minerals, and precious metals**
- An overview of the Environmental Impact Assessment process; and
- Guidance on how members of public can participate in the process as Interested and Affected Parties (I&APs).

I&APs comments and concerns are vital to the success of the EIA process and potential public members are encouraged to register and participate.

Please register / complete registration form and submit to SS Consultants CC on or before the **3rd March 2025**.

Attention : Ms. Uaanao Katjinjaa
Address: Unit 24B, Bougain Villa, Sam Nuuyoma Road, Windhoek, Namibia

Cell: +264812409124

INTRODUCTION

SS CONSULTANTS CC (hereafter referred to as the Consultant), an independent mineral resource and environmental consulting company has been appointed by **Johannes Gideon Erika Sunday** (here after referred to as the Proponent) to undertake an environmental assessment process and obtain an environmental clearance certificate from the Environmental Commissioner on behalf of the latter for the proposed mineral exploration activities on **EPL No.9836**

The proposed exploration activities fall in the listed activities under the Environmental Management Act 7 of 2007 – activities which may not be undertaken without Environmental Clearance Certificate. Hence the proponent is expected to obtain an Environmental Clearance Certificate from the Environmental Commissioner prior to the commencing of these exploration activities.

The proposed development is therefore related to the specific listed activities as outlined by relevant sections in EMA Regulations of 2012:

- *Construction of facilities for any process or activities which requires a license, right or other form of authorization, and the renewal of a license, right or other form of authorization, in terms of the Minerals (Prospecting and Mining Act), 1992 (Section 3.1);*
- *Other forms of mining or extraction of any natural resources whether regulated by law or not (Section 3.2);*
- *Resource extraction, manipulation, conservation, and related activities (Section 3.3);*
- *Abstraction of ground or surface water for industrial or commercial purposes (Section 8.1).*
- *Manufacturing, storage, handling, or processing of a hazardous substance defined in the Hazardous Substances Ordinance, 1974 (Section 9.1).*
- *Any process or activity which requires (Section 9.2).*

1 Project Description

The Exclusive Prospecting License (EPL) 9836 was applied for by **Johannes Gideon Erika Sunday** on the 23 November 2023 to the Ministry of Mines and Energy (MME). To execute any exploration activities within EPL No.9836, it is a requirement under the Environmental Management Act (EMA) (2017) and its 2012 EIA Regulations that the proponent obtains an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs (DEA) of the Ministry of Environment, Forestry and Tourism (MEFT). The ECC will enable the license owner to conduct exploration activities for Base and Rare Metals, Industrial Minerals, and Precious Metals. The project area is made up of one EPL license; if commercially viable mineral deposits are found and all necessary licencing requirements are satisfied, the licence may be converted into one or more mining licences.

Johannes Gideon Erika Sunday applied for EPL 9836 on 23 November 2023, through the Ministry of Mines and Energy (MME). Under the Environmental Management Act (EMA) (2017) and its 2012 Environmental Impact Assessment (EIA) Regulations, an Environmental Clearance Certificate (ECC) from the Department of Environmental Affairs (DEA) of the Ministry of Environment, Forestry, and Tourism (MEFT) is required before any exploration activities can commence. The ECC will authorize the exploration of the applied group of commodities within the EPL.

The proposed exploration program will employ both non-invasive and invasive methods. Non-invasive techniques include remote sensing, geological field mapping, ground geophysical surveys, and surface soil and rock sampling. If initial results are promising, more invasive methods such as reverse circulation or diamond drilling and trenching will be conducted.

The EPL area is well-served by existing infrastructure, including water supply, power lines, national roads, and telecommunication networks. The project will utilize these resources where feasible, subject to agreements with landowners and relevant permits from various authorities. To ensure effective implementation, geological consultants and contractors will be engaged at various stages of the exploration process. A geophysics expert may be contracted for geophysical surveys as needed, and drilling operations will be carried out by a registered drilling contractor providing its own crew. Rehabilitation efforts will be conducted in compliance with the National Policy on the Prospecting and Mining of Mineral Resources, which mandates responsible environmental restoration throughout and upon completion of activities.

The exploration activities on EPL 9610 have the potential to create direct and indirect employment opportunities, stimulating economic growth in Otavi and Otjiwarongo and surrounding areas. Competitive wages offered by the project are expected to benefit the local workforce, particularly from nearby towns such as Grootfontein and Okakarara, where unskilled labor may be sourced. Workers will either be accommodated in temporary site camps or reside in nearby towns for the duration of the exploration program. Additionally, the discovery of economically viable ore deposits could contribute to long-term employment, wealth creation, and national economic development through mineral extraction.

2 Project Location

The EPL No.9836 is located at approximately 10km north west of Otjiwarongo town and it covers an area of 19982.3598 hectares of land as shown on the locality map below.

COORDINATES MAP

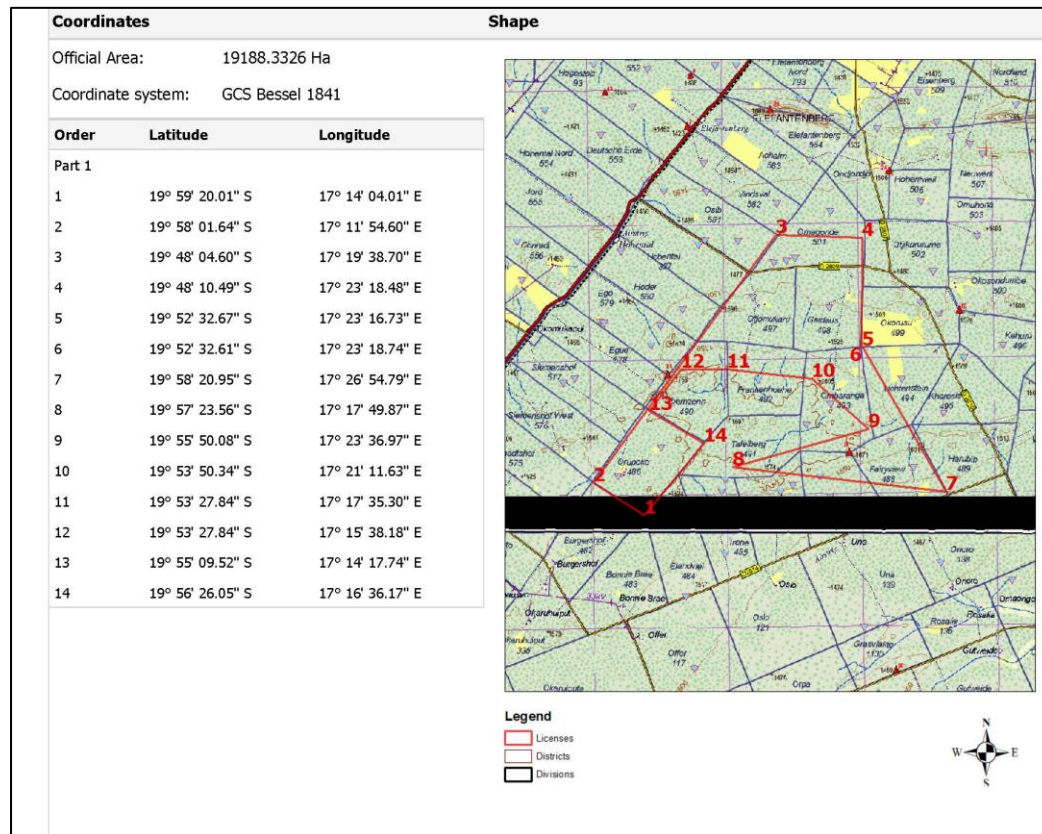

Figure 1 Corner coordinates for the project area.

LOCALITY MAP

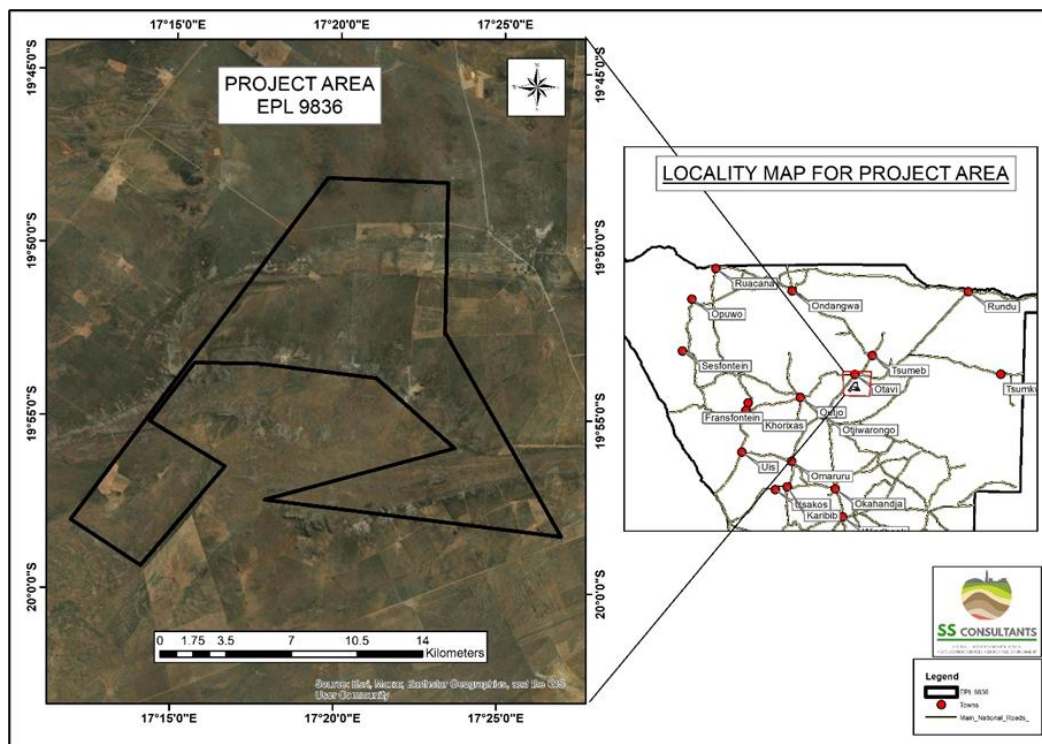

Figure 2: Locality map for the project area.

3 Legal Requirements

Apart from the Environmental Management Act, the project will also be guided and comply to the following national regulatory requirements:

- Water Act 54 of 1956 (including Water Resource Management Act 11 of 2013 – not yet in force)
- National Heritage Act 27 of 2004
- Mineral (Prospecting and Mining) Act 33 of 1992
- Forest Act 12 of 2001
- Agricultural (Commercial) Land Reform Act 6 of 1995 (including relevant amendments)
- Labour Act 11 of 2007
- Nature Conservation Ordinance 4 of 1975 (including relevant amendments)

4 Environmental Impact Assessment Process

The EIA process follows the general guideline as outlined in the EMA Regulations of February 2012. An outline of the EIA steps and the associated and parallel processes is given below:

N.B: Once the Environmental Commissioner makes a decision on the application whether in favor of the proponent or not, the Environmental Management Act as guided by its Regulations also provide for the Process of Appeal. Therefore I&APs if not satisfied with the decision made, will still have an opportunity to raise their concern on the decision.

5 Potential Impacts

Below are the potential impacts that have been identified from the proposed exploration activities on the license area:

5.1 Possible positive impacts

- **Temporary job creation:** this is the hiring of workers non-skilled to skilled workers from the area to be involved during the clearing of the fauna and flora in order to access target sites, and to also assist during pitting and trenching as well as drilling and associated exploration works.
- **Knowledge and skills transfer:** Ad-hoc training programmes during implementation phase enables the hired personnel with certain potential skills.
- **Operating levies payable to authorities:** potential revenue collection.

5.2 Possible negative impacts

- **Impact on vegetation and fauna:** some vegetation may need to be removed to create access roads, pitting and trenching, geophysical lines as well as drilling sites. This may also lead to habitat destruction for some fauna.
- **Traffic safety:** very slow drilling rigs and associated vehicles may compromise traffic safety in the area.
- **Environmental degradation:** through different types of waste generated on the site.
- **Soil and water contamination:** from chemicals and other substances used in drilling fluids.
- **Noise and dust** generated by pitting and trenching as well as drilling vehicles and activities.
- **Health and safety risks** which may result to workers operating on site.
- **Conflict with small scale miners, farmers or land owners:** The proposed operations may be conflicted with this activity, but there could also be synergies for collaboration.

6 Public Consultation

Public participation is an essential part of any Environmental Assessment process. Interested and Affected Parties (I&APs) include any person or organization that will be directly or indirectly involved and/or affected by the project. Appropriate national, regional, and municipal authorities and interested members of the public were identified.

Registered I&APs will be kept informed of the Public Participation Process throughout the Environmental Assessment process, they will be given the opportunity to review and comment on the EIA reports and documents and, will also receive feedback on how comments have been considered, and will be informed of the outcome of the assessment. All comments will be recorded and presented to the project team and competent authority by means of the Project Comments and Responses Register (CRR).

Notices for public invitation to participate in the process will still be placed in the local newspaper as well as at strategic public places (notice boards). The date and venue for the public consultation meeting will be communicated.

If you categorize yourself as an I&AP who wishes to receive information regarding the above-mentioned project and/or provide input into the Environmental Impact Assessment process, you are hereby invited to register using the form on next page. You may also communicate with SS Consultants via email, or telephone to obtain further information or comment on the proposed project.

REGISTRATION OF INTERESTED AND AFFECTED PARTIES (I&APs)

**ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED EXPLORATION ACTIVITIES FOR
DIMENSION STONE, BASE AND RARE METALS, INDUSTRIALS MINERALS AND PRECIOUS METALS ON EPL
NO. 9836 LOCATED IN OTAVI CONSTITUENCY, OTJOZONDJUPA REGION, NAMIBIA**
