## PUBLIC NOTICE FOR THREE STOREY DWELLING UNIT

Take notice that the owners, Quarto Investments Twenty Six CC, of Erf 3924, Klein Windhoek (Avis), intend to apply to the Windhoek Municipal Council for the construction of a three-storey dwelling on Erf 3924, Klein Windhoek (Avis).

The proposed construction will allow the owner to erect a three-storey dwelling unit on Erf 3924, Klein Windhoek (Avis).

Should this application be successful, the number of vehicles for which parking must be provided on-site will be determined by the City of Windhoek Municipal Council in accordance with the City of Windhoek Town Planning Scheme (now known as the City of Windhoek Zoning Scheme).

The owner's current intentions are to erect and use the building for residential purpose.

Kindly take notice that the plan of the erf lies open for inspection at the town planning notice board in the Customer Care Centre, Main Municipal Offices, Rev. Michael Scott Street, Windhoek.

Further take notice that any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof with the City of Windhoek, fifth floor office 524 and with the applicant (SPC) in writing within 14 days of the last publication of this notice.

Dated at Windhoek this 10 day of January of 2025  
The last date for any objection is 7 February 2025.

Owner Name: Quarto Investments Twenty Six  
Six  
Postal address: P.O. Box 6838 Windhoek  
Contact details:

### NOTICE OF ENVIRONMENTAL SCOPING ASSESSMENT (ESA) FOR: THE PROPOSED EXPLORATION ACTIVITIES ON THE EXCLUSIVE PROSPECTING LICENCE (EPL) NO. 10023, 10029, 10048, 10049, 10051 AND 10053

Under the Environmental Management Act No. 7 of 2007 and its 2012 EIA Regulations, the proposed exploration activities on EPL 10023, 10029, 10048, 10049, 10051 and 10053 require Environmental Clearance Certificates (ECCs) from the Department of Environmental Affairs and Forestry (DEAF) before commencement.

The public is notified that applications for ECCs to allow for exploration activities on 10023 (northwest of Otavi), 10029 (north of Kamantjap), 10048 (east of Kamantjap), 10049 (northwest of Otavi), 10051 (north of Otavi) and 10053 (northeast of Kamantjap) will be submitted to the Environmental Commissioner. The environmental scoping process will be carried out to identify potential positive and negative impacts of the proposed activities and to support the evaluation process for ECCs. The main target commodity on EPLs: Base and Rare Metals and Industrial Minerals.

Proponents: Bamba Mining Namibia (Pty) Ltd  
Environmental Consultant: Excel Dynamic Solutions (Pty) Ltd  
Public members are invited to register as Interested and Affected Parties to comment/raise concerns or receive further information on the Environmental Assessment process. Public Consultation meeting details will be communicated with all the registered I&APs. Registration requests should be forwarded to Excel Dynamic Solutions (Pty) Ltd on the contact details below, before or on 17 February 2025.

### REZONING OF ERF 7113, NO. 420 INDEPENDENCE AVENUE, WINDHOEK FROM 'RESIDENTIAL' WITH A DENSITY OF 1 DWELLING PER 900M<sup>2</sup> TO 'BUSINESS' WITH A BULK OF 1.0

DU TOIT TOWN PLANNING CONSULTANTS, are applying on behalf of the Executors of the Estate of the owner of Erf 7113, No. 420 Independence Avenue, Windhoek in terms of the stipulations of the Urban and Regional Planning Act, 2018 (Act No. 5 of 2018), to the Windhoek City Council and the Urban and Regional Planning Board for:

Re-zoning of Erf 7113, No. 420 Independence Avenue, Windhoek from 'residential' with a density of 1 dwelling per 900m<sup>2</sup> to 'business' with a bulk of 1.0. Erf 7113, Windhoek is located in Independence Avenue on the corner of Independence and Luther Street, adjacent to the Government Office Park to the east. The erf is 537m<sup>2</sup> in extent and although it's been used for a second hand car dealership for many years, it is still zone 'residential' with a density of 1 dwelling per 900m<sup>2</sup>.

In order to finalise the Estate of the late owner, the erf needs to be rezoned to 'business' with a bulk of 1.0 to obtain compliance for the buildings and transfer of the property. The erf to the north of Erf 7113 are all zoned 'business' with a bulk of 1.0, while the properties to the south have higher bulk factors. The parking provision will be in line with the requirements of the City of Windhoek. The rezoning is not expected to have any negative influence on the character of the neighbourhood.

Any person objecting to the proposed use of land as set out above may lodge such objection together with the grounds thereof with the City Council (the Urban Planner-Town House, Fifth Floor, Room 516) and the applicant within 14 days of the last publication of this notice (final date for objections is 7<sup>th</sup> February 2025).

Should you require additional information you are welcome to contact our office.

**Subject:** Public consultation meeting invitation for the Environmental Impact Assessment on the proposed Exclusive Prospecting Licenses (EPL) No. 9597  
**Attachments:** BID \_EPL 9597.pdf

Dear Esteemed Interested & Affected Party,

Red Enterprises (Pty) Ltd (The Proponent) proposes to undertake prospecting and exploration activities on Exclusive Prospecting License (EPL) No. 9597 located 15km north of Grootfontein, Otjozondjupa Region.

Mineral prospecting and exploration is one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. The Proponent, therefore, appointed Excel Dynamic Solutions (Pty) Ltd, an independent Environmental Consultants firm to conduct the required Environmental Scoping Assessment (ESA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations require that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication.

Please find the attached Background Information Document (BID) the proposed prospecting and exploration activities and the site notice as a public consultation invitation.

The EPL cover farms: Toggenurg 1255, Huba 1344, Kalkhugel 12, Gemsbocklaagte 11, Farkfontein 10, Olifantsfontein 9, Khusib 5, Gobis Water A 1395, Dawn 809, Valparaiso 683, Vlissingen 684 and Saint Andrews 1161.

We would greatly appreciate if the landowners could kindly provide us with their names, farm names, and contact details so that we can register them as Interested and Affected Parties (I&APs).

We are currently working to finalize the date for the stakeholders engagement meeting and will provide further details once this information is available.

Kind regards,

**Excel Dynamic Solutions (Pty) Ltd**

**Attachments:** BID \_EPL 9597.pdf; Site\_Notice\_EPL 9597.pdf

Dear Valued Stakeholder,

Red Enterprises (Pty) Ltd (The Proponent) proposed to undertake prospecting and exploration activities on Exclusive Prospecting License (EPL) No. 9597 located about 15 km north of Grootfontein, Otjozondjupa region. Mineral prospecting and exploration is one of the listed activities that cannot be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management Act No. 7 of 2007. The Proponent, therefore, appointed Excel Dynamic Solutions (Pty) Ltd, an independent Environmental Consultants firm to conduct the required Environmental and Social Impact Assessment (ESIA) process and apply for the ECC.

Furthermore, Sections 21 to 24 of the EIA Regulations require that Public Consultation is undertaken as one of the crucial components of the Environmental Assessment, which involves the pre-identification of potential Interested & Affected Parties (I&APs) or Stakeholders and ongoing registration of new I&APs and subsequent consultation. You have therefore been identified as a potential I&AP for this proposed activity, and the reason you are receiving this communication.

Please find the attached Background Information Document (BID) and the site notice for the proposed exploration activities .

You are hereby invited to a Public Meeting as per the following details:

**Date:** 25<sup>th</sup> February 2025

**Time:** 12H30

**Venue:** Peace Garden Lodge, Grootfontein

Please share this communication with all stakeholders / interested and affected parties.

*We are looking forward to seeing you all at the meeting.*

**13 June 2025**

**PUBLIC CONSULTATION MEETING MINUTES:**

**PROJECT: Environmental Scoping Assessment (ESA) for Proposed Exploration Activities on Exclusive Prospecting License (EPL) No. 9597 located North of Grootfontein in the Otjozondjupa region, Namibia.**

**Date:** Friday, 09 May 2025

**Time:** 11:00 – 11:44

**Venue:** The farm shop, Grootfontein

Six people attended the public consultation meeting, including one Environmental Consultants (Mr. Leonard Mandume) and one Archaeologist (Ms. Victoria Shekunyenge) from Excel Dynamic Solutions (Pty) Ltd (EDS). Please refer to the attached attendance register for a complete list of attendees.

**1. INTRODUCTION AND WELCOMING REMARKS**

The Environmental Consultant (Mandume) began the meeting by introducing the team and explaining the purpose of the consultation, which was to engage Interested and Affected Parties (I&APs) about the proposed prospecting and exploration activities within **EPLs 9597**.

An attendance register was then circulated among the attendees, enabling them to register their names and contact details, which would be used to maintain communication and provide updates on the Environmental Impact Assessment (EIA) process.

## **2. MEETING AGENDA AND PRESENTATION**

The agenda of the meeting included the following main points:

### **2.1 Brief Description of the Project**

Mr. Mandume Leonard provided the attendees with an overview of the EIA process, citing relevant legislations such as the Environmental Management Act and its 2012 EIA Regulations on Public Consultation. He then explained the significance of obtaining an Environmental Clearance Certificate (ECC) for the proposed project, emphasizing the attendees crucial role in contributing to the EIA process by offering their insights and feedback regarding the potential environmental, social, and economic impacts of the proposed project.

### **2.2 Presentation of Potential Project Impacts**

To ensure transparency and that the attendees understand both sides of the proposed project activities, the Environmental Consultant also presented the potential pre-identified potential positive & negative environmental and social impacts.

### **2.3 Public Open Discussion (Interactive Session)**

Mr. Leonard allowed the meeting attendees to raise their concerns, issues, and/or comments on the proposed project activities. The concerns/issues and comments recorded are presented in Table 1 below.

**Table 1: Comments and issues raised during the public consultation meeting, 9 May 2025**

<b>Comment/ issue No.</b>	<b>Commenter name &amp; issue / comment / question</b>	<b>Response and name of responder:</b>
<b>1.</b>	Who is responsible for conducting a final inspection of the area with the land owner to identify and address any potential issues, such as the presence of graves or other culturally significant sites?	<b>Mr. Mandume Leonard (ML):</b> It will be Excel Dynamic Solutions team. After the meeting will also require permission to go to your farms and take coordinates that will form part of our reports that we will submit to the relevant authorities.
<b>2.</b>	Are there going to be any specialist studies?	<b>ML:</b> Currently, the only specialist study that is required for this project is an archaeological assessment, as mandated by the Ministry of Environment, Forestry and Tourism.
<b>3.</b>	Could you please provide us with an estimated timeframe for when the report will be completed?	<b>ML:</b> We do not have a precise timeline for the finalization of the scoping report at this time. We are currently in the process of drafting the report and are open to incorporating feedback and comments from stakeholders.
<b>4.</b>	Given that many of the farms are agronomy farms and visits could potentially interfere with their operations, we propose scheduling appointments with the farmers in advance. This would not only allow us to conduct the visits at a time that is convenient for the farmers, but also ensure that we have access to knowledgeable	<b>ML:</b> Yes, I agree with you. But if you read our invitation email we pleaded with the farmers to allow us to access their farms so we do the assessment after the meeting.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
	<p>personnel who can provide us with a comprehensive understanding of the farms. Do you believe that this approach would be more efficient and respectful to the farmers?</p>	
5.	<p>With regard to the prospecting phase, in which you have mentioned the employment of approximately 5 to 10 people, we would like to understand the procedures for managing and monitoring the personnel. Could you please elaborate on the mechanisms in place for ensuring that these individuals are properly vetted, supervised, and held accountable for their actions?</p>	<p><b>ML:</b> If the proponent is granted the Environmental Clearance Certificate (ECC), strict guidelines will be put in place for the prospecting phase. This will include thorough background checks on all personnel to be employed, as well as continuous monitoring and supervision throughout the duration of the project.</p>
6.	<p>One of our concerns is the potential impact of dust on the environment and people's health. Will the scoping report address this issue, including any proposed mitigation measures?</p>	<p><b>ML:</b> The report will include relevant information about the potential impacts and mitigation measures on dust generation and monitoring.</p>

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
7.	In light of the fact that some people may not always adhere to rules and regulations, how will transparent and open communication be ensured among farmers to prevent potential conflicts or misunderstandings during the course of the project?	<b>ML:</b> After the Environmental Clearance Certificate (ECC) is issued, the proponent will need to obtain a land access agreement from the land owner before conducting any exploration activities on the property. This agreement will outline the terms and conditions for accessing the land, including any restrictions or limitations that may be necessary to protect the land, the environment, and the interests of the land owner. Without such an agreement, the proponent will not be allowed to proceed with any exploration activities on the land.
8.	Has this EPL already been allocated?	<b>ML:</b> It's an application pending an ECC
9.	What are the next steps?	<b>ML:</b> It will be to do the assessment process, which involves surveying and studying the flora, fauna, and cultural sites within the area. This will help them identify any potential environmental or cultural potential impacts associated with the exploration activities, and determine any necessary mitigation measures.
10.	Can you confirm whether the proponent is the company that will be carrying out the exploration, or are they merely the holder of the license?	<b>ML:</b> The proponent intends to conduct the exploration activities themselves.

Comment/ issue No.	Commenter name & issue / comment / question	Response and name of responder:
11.	The drilling will impact the water requirement per month because 3000L is very little as stipulated in the background information document.	<b>ML:</b> It is most likely to change depending on the type of drilling that will be employed during the exploration phase.
12.	Will you also do water testing, quality testing during the assessment process?	<b>ML:</b> Yes, the proponent will conduct water quality testing once the Environmental Clearance Certificate (ECC) is obtained.

## **FINAL REMARKS AND CONCLUSION OF THE MEETING**

Mr. Leonard thanked the attendees for their crucial input through comments and raising their concerns. He indicated to the attendees that all their comments, concerns, and inputs had been noted down for consideration and addressing in the Environmental Scoping Assessment (ESA) Report as well as incorporating their recommendations into the draft EMP.

Furthermore, Mr. Leonard informed the attendees that the draft meeting minutes, Environmental Assessment Report, and Environmental Management Plan (EMP) will be shared with them for review and further comments. These documents will be made available through emails provided on the attendance register.

Once the review of the draft ESA Report and EMP is done, the documents will be finalized and submitted to the Environmental Commissioner at the Department of Environmental Affairs and Forestry (DEAF) for evaluation and consideration of an ECC.

The meeting adjourned at 11h44.

Dear Mr. Leonard

**RE: ENVIRONMENTAL IMPACT ASSESSMENT ON BEHALF OF RED ENTERPRISES (PTY) LTD – EXPLORATION ON EPL NO: 9597**

1. With reference to the above-mentioned matter, we herewith confirm that we were appointed by the farm owners (interested and affected parties) herein, to act as their Environmental Assessment Practitioners in the aforementioned Environmental Impact Assessment Process.
2. Our clients were only made aware of the Environmental Impact Assessment Process on even date, when our clients were informed of the Public Consultation to be held at Peace Garden Lodge, Grootfontein, on **25 February 2025**.
3. Therefore, as the newly appointed Environmental Assessment Practitioners on behalf of the interested and affected parties, we request that you please allow us a reprieve to get up to speed with the Environmental Impact Assessment Process, as well as to consult with our clients.
4. We will formally revert back to you, in respect of what information we require, as well as with dates on which we will be available for the meeting herein.
5. Your urgent response herein will be highly appreciated.
6. Please do not hesitate to contact us should you require anything further.
7. We trust that you will find the above in order.

Yours faithfully,

Dear Mr Pienaar,

Our team is currently planning a second stakeholders engagement meeting to ensure that all interested parties have an opportunity to participate in the EIA process.  
The date for this meeting will be determined and communicated to all stakeholders well in advance, providing ample notice for preparation and attendance.

If you have any questions or concerns regarding the EIA process or the upcoming stakeholders engagement meeting, please do not hesitate to reach out.

Kind regards,

**Excel Dynamic Solutions (Pty) Ltd**
