APPENDIX C.2

BACKGROUND INFORMATION DOCUMENT

BACKGROUND INFORMATION DOCUMENT (BID)

FOR THE PROPOSED TOWNSHIP ESTABLISHMENT ON PORTION 37 OF THE REMAINDER OF FARM EENHANA TOWN AND TOWNLANDS NO. 859

1. INTRODUCTION

The Eenhana Town Council, in collaboration with the Development Workshop of Namibia (DWN), has appointed Urban Dynamics Africa (UDA) to facilitate the approval process for the proposed Township Establishment on Portion 37 of Farm Eenhana Town and Townlands No.859.

This project is a Greenfield development, meaning it will establish a new township on previously undeveloped land. The initiative aims to provide secure tenure and ensure access to essential infrastructure and services.

To facilitate this, UDA will apply for township establishment from the Ministry of Urban and Rural Development and an Environmental Clearance Certificate (ECC) from the Ministry of Environment, Forestry, and Tourism. This Background Information Document (BID) provides key project details and encourages active participation from interested and affected stakeholders. It also outlines how stakeholders can engage in the process effectively.

2. PROJECT DESCRIPTION

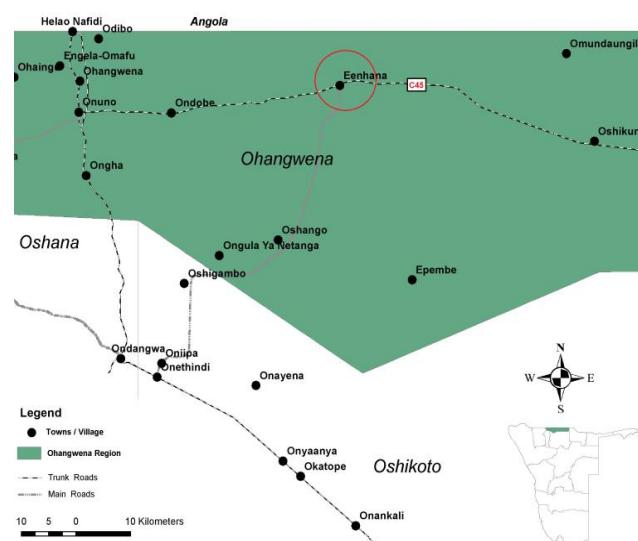

2.1. PROJECT RATIONALE

The proposed development is located in Eenhana, the regional capital of Ohangwena Region and a key growth centre. Situated about 76 km northeast of Ondangwa, Eenhana is well-connected via major transport routes, including the C45 (Onhuno–Okongo) and the M121 (Eenhana–Oniipa).

2. PROJECT DESCRIPTION
3. BACKGROUND
4. HOW THE EIA PROCESS WORKS
5. ANTICIPATED BENEFITS AND IMPACTS
6. HOW TO BECOME INVOLVED

Figure 1: Locality of Eenhana within the Region

3. BACKGROUND

DWN aims to create a new township to provide ultra-low-income residents with opportunities for secure land tenure. The project will contribute to an adequate supply of residential properties, formalise property ownership and the installation of service infrastructure. The Eenhana Town Council has identified this development as a strategic urban expansion, ensuring the planned growth of the town while supporting housing needs.

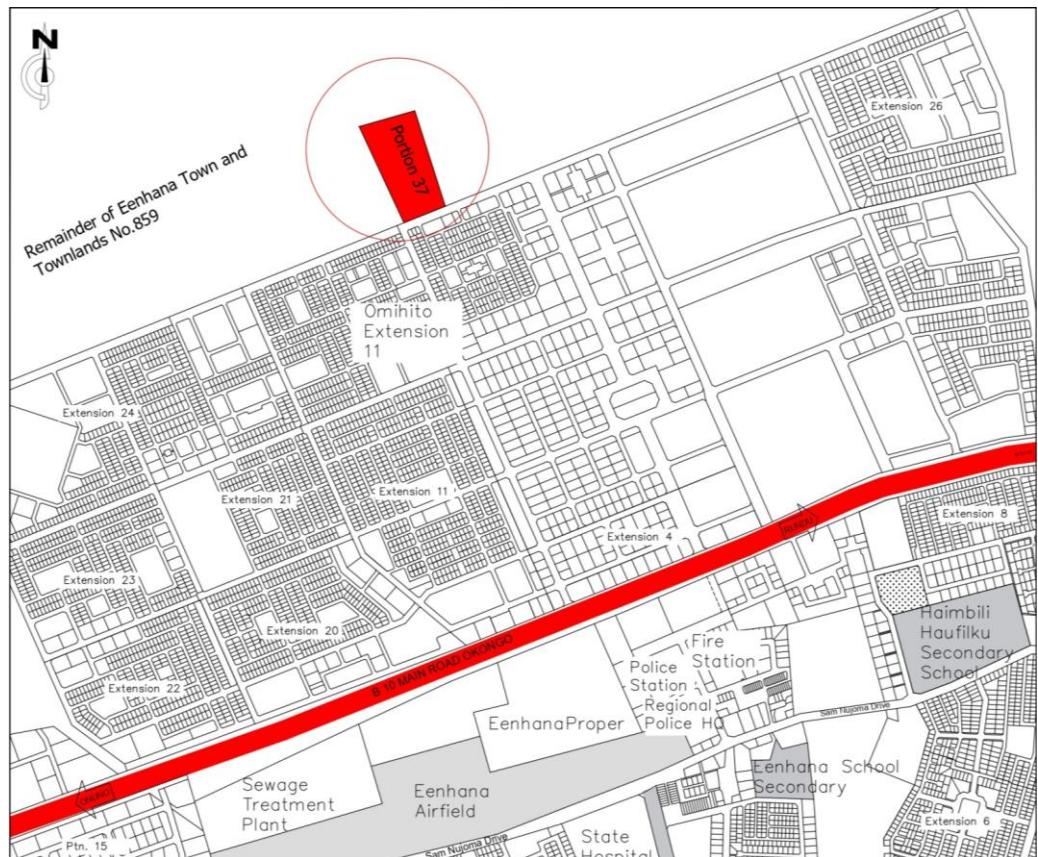

3.1. LAY OF THE LAND

The development is located on Portion 37 of the Remainder of Farm Eenhana Town and Townlands No. 859 at -17.27297 S, 16.19117 E. The site is on the northern side of the land north of Omhito Extension 11 a formal townships. To the North of the project sites is the Dr Sam Nujoma Drive intersecting with the C45 main road to Onhuno. The localities of the sites are depicted in the figure below. Portion 37 measures 10 ha.

Figure 2: Locality Plan

3.2. CURRENT LAND USE

Portion 37 of Eenhana is located within the townlands and is currently zoned as undetermined according to the zoning scheme. It is considered a Greenfield development and is primarily used for grazing and wood harvesting.

3.3. PROPOSED LAYOUT ON PORTION 37

The draft layout for the portion makes provision for 125 new erven, these will be reserved for various land uses of which majority are zoned residential. The layout will alter the zoning of Portion 37 from Undetermined to Residential, Business, Institutional, and Public Open Spaces land use. The different erven shapes are illustrated in Figure 3. Table 1 summarises the detailed land-use allocation for Portion 37's layout.

Figure 3: Draft Layout on Portion A

POS	2	9 930	10
Street		35 688	35
TOTAL	125	119 441	100

Table 1: Draft Layout on Portion 37

Residential

Residential is the predominant land use. A total of 114 residential erven were provided. The average size of a residential erf is 376m² in extent.

Business

Three well-located business erven are provided which will serve the residents of Portion 37 as well as the neighbouring residents. The erven measures 1 342m² in extent and they are large enough to accommodate various business buildings.

Institutional

One big erven is reserved for a community centre strategically located in close proximity to the public open spaces to serve the residents on portion 37

Public Open Space

A total of 2 public open space erven have been provided through this layout. The erven vary in size to serve various functions. The public open spaces take up about 10% of the layout.

3.4. EXISTING INFRASTRUCTURE

The construction of bulk infrastructure is a key component of the township establishment project. These activities will include the installation and upgrading of essential services to support the formalisation of the new township. The primary infrastructure elements to be constructed or upgraded include:

- **Water Supply Infrastructure:** Installation of water pipelines and storage facilities to ensure a reliable supply of potable water for residents and businesses within the new township.
- **Roads and Street Infrastructure:** Construction of new roads, to improve accessibility and connectivity within the township. This will also include the upgrading of existing roads where necessary.
- **Electricity Supply:** Installation of electrical lines, substations, and transformers to provide reliable electricity to the new township.

4. THE EIA PROCESS

In compliance with Namibia's Environmental Management Act (Act No. 7 of 2007) and the Environmental Impact Assessment (EIA) Regulations (2012), certain activities require obtaining an Environmental Clearance Certificate (ECC) from MEFT. The following table outlines the relevant activities and their legislative references:

Table 1: Relevant Environmental Clearance Requirements for Construction Activities

LEGISLATIVE SECTION	ACTIVITY	DESCRIPTION
Section 10.1(a)	Construction of pipelines (oil, water, gas, etc.)	Covers the construction of bulk supply pipelines, including oil, water, gas, and petrochemical pipelines, requiring an ECC for compliance.
Section 10.1(b)	Construction of public roads	Requires an ECC for the construction of public roads, including route determination and design of associated physical infrastructure.
Section 10.2(a)	Route determination and design of associated physical infrastructure for public roads	Includes the construction of telecommunication networks, towers, and related cable systems that require an ECC.

These activities are listed under the EIA Regulations and require an Environmental Clearance Certificate (ECC) before proceeding. The process includes submitting an application, conducting public consultations, and preparing impact assessments. Detailed procedures are available on the Ministry of Environment and Tourism's website. Compliance with these regulations ensures the project is environmentally sound and legally compliant.

This BID invites all potential I&APs to register as stakeholders and share comments, concerns, and issues related to the assessment. These activities are listed activities under the EIA Regulations and cannot proceed without obtaining an ECC. The process involves submitting an application to the competent authority, conducting public consultations, and preparing assessments to evaluate potential environmental impacts. Detailed procedures and requirements are outlined in the EIA Regulations available on the Ministry of Environment and Tourism's website.

It's essential for the project to comply with these legislative requirements to ensure all construction activities are environmentally sound and legally compliant.

5. ANTICIPATED BENEFITS AND IMPACTS

The project is expected to create several benefits, including:

Benefits:

- ④ **Functional Layout:** The project will create a well-structured layout that integrates seamlessly with existing developments.
- ④ **Formal Erven:** It will provide officially recognised residential and business plots, ensuring security of tenure for households and businesses.
- ④ **Economic Stimulation:** By promoting growth and attracting investment, the project will open new development opportunities.
- ④ **Employment Generation:** Jobs will be created during both the construction phase and long-term operation, benefiting the local workforce.
- ④ **Land Tenure:** Residents will gain legal ownership of their plots, allowing them to access services, invest in their properties, and contribute to local economic development.

However, it's essential to acknowledge and assess potential environmental and social impacts, including:

Impacts:

- ④ **Traffic Disruption:** Disruption of traffic flow during the construction phase.
- ④ **Construction Dust:** Potential environmental impact due to construction-related dust.
- ④ **Construction Noise:** Noise pollution affects surrounding communities during construction.
- ④ **Worker Safety:** Impacts on the health and safety of workers involved in the project.
- ④ **Tree Removal:** Potential removal of protected trees, affecting the local environment.
- ④ **Solid Waste Pollution:** Risk of solid waste pollution in the area during construction and operational phases.

6. HOW TO BECOME INVOLVED

- Mr Steve Mwaningange – Acting Chief Executive Officer
- Mr Tomas Mutota – Property and Land Manager

DEVELOPMENT WORKSHOP NAMIBIA (DWN)

- Ms Verena Aindongo – Project Manager

3. PURPOSE OF THE MEETING

The purpose of the meeting was to introduce the proposed township establishment and initiate the environmental scoping process. The meeting aimed to identify environmental and social aspects relevant to the project area and to collect local knowledge from the community in order to better understand the environmental setting within which the proposed township layout will be developed.

4. PROJECT PRESENTATION

At the start of the meeting, all participants were provided with a Background Information Document (BID), a base map, and a layout plan of the proposed township establishment.

Ms Tresia Amwaalwa presented the proposed township layout, including the proposed land uses and supporting infrastructure. Existing infrastructure within the project area, such as the pump station and water meters, was highlighted to provide context. The presentation also covered typical environmental impacts associated with township developments and explained how community input would inform the environmental assessment and planning process.

5. QUESTIONS, COMMENTS, AND DISCUSSION

The following key issues and comments were recorded during the discussion:

- Community members requested clarification on how adjacent informal areas would benefit from the proposed township establishment.

AGENDA & MINUTES OF THE MEETING: For the Proposed Township on Portion 37 of Farm Eenhana Town and Townlands NO. 859
(To Be Known as Ekolola) Eenhana Community Meeting held on the 17th of March 2025

- Concerns were raised regarding the formalisation of open land while adjacent occupied areas remain informal.
- Questions were asked regarding land allocation criteria, priority beneficiaries, and the selection process for erven.
- A request was made for the inclusion of a kindergarten or similar community facility within the development.
- Community members recommended that local residents be prioritised for employment opportunities during construction.

Responses to these questions and concerns were provided by the Mayor, Urban Dynamics Africa, and Development Workshop Namibia.

Overall, participants expressed acceptance of the proposed layout and support for the development.

6. CLOSURE AND ADJOURNMENT

His Worship Mr Kavandje thanked all participants for their valuable contributions and reiterated the importance of continued community engagement throughout the planning and implementation phases of the project.

THE MEETING WAS ADJOURNED AT 19:10.
