Rundu Tourism Minimally Promoted

Photo: Contributed

Annaklela Haikera

Various entrepreneurs in Kavango East have raised concerns over the lack of facilities to support tourism, saying the situation is limiting opportunities for economic growth and diversification.

This came to light during a visit by the Parliamentary Standing Committee on Natural Resources on Wednesday.

Local farmers said Rundu has no designated facilities to attract tourists.

The tourism sector which comprises local and foreign tourists alike is one of the few sectors which also feeds other industries.

Towns such as those in the coastal areas continue to invest in their local attractions to attract visitors. Similarly, Windhoek also prioritises tourism as a key sector to promote.

The entrepreneurs also voiced that there is an absence of an aquaculture office in the region. This, they say, is a big oversight, as fish farmers lack guidance on how to effectively tap into the industry.

The building intended to cater for fish farmers has stood abandoned for about 13 years since construction began.

According to the Ministry of Agriculture, Fisheries, Water and Land Reform, the N\$16 million infrastructure project started in 2012.

It is reported that the initial contractor was replaced for failing to adhere to the original scope, and African Silver Engineering was later appointed to complete the work in 2018.

However, progress stalled due to payment issues, leaving the building deserted ever since.

Rudolph Haingura, one of the farmers, noted that despite the region's proximity to rivers, many farmers have yet to explore fish farming. He said this was a missed opportunity to diversify agricultural activities and improve household incomes.

"With the right training, resources, and support from authorities, farmers could tap into aquaculture," he suggested.

"This would not only improve food security, but also create jobs, especially during droughts or seasonal drops in crop production," Haingura added.

Another farmer, Johannes Ipinge Murenga, shared his personal experience of building a fish pond at home, which proved highly successful.

He expressed frustration that while authorities are quick to arrest those fishing illegally, they have failed to provide training or support for fish farming.

Furthermore, farmers in conservancy areas revealed there are no structured plans for trophy hunting, another potential revenue stream that could boost tourism and benefit local communities.

The parliamentary standing committee chairperson, Tobie Aupindi, acknowledged the concerns, stressing the urgent need to rehabilitate the abandoned facility, launch fish farming initiatives, and develop strategies to promote both tourism and sustainable fisheries in Rundu.

CALL FOR REGISTRATION AS INTERESTED & AFFECTED PARTIES

ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED PROSPECTING IN RESPECT TO PRECIOUS METALS, BASE AND RARE METALS, INDUSTRIAL MINERALS AND DIMENSION STONES ON EPL 9437, ERONGO REGION

1. PROJECT SITE AND DESCRIPTION

Penetrated investment α (the Proponent), intends to apply to obtain an Environmental Clearance Certificate for their proposed prospecting activities in respect to Precious Metals, Base and Rare Metals, Industrial Minerals, and Dimension Stones on a combined area of approximately 947.86 Ha in the Erongo Region. The key component of the proposed activity entails geological mapping and survey and manual sample collection for laboratory analysis, and small-scale mining operation. Access to the sampling or survey sites will be by existing tracks and on foot where vehicle access is limited.

2. PUBLIC PARTICIPATION PROCESS

Enviro-Leap Consulting invites all Interested and Affected Party (I & AP) to register and receive Environmental Assessment (BID, Scoping and EMP) documents relating to the proposed project for their comments and input. Interested and Affected Parties are herewith request to register by writing to us at the address below no later than **04 September 2025**.

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialists has been appointed by the owner of Erf 2948, Okahandja, Extension 6, to apply to the Municipality of Okahandja and the Urban and Regional Planning Board for the:

REZONING OF ERF 2948, OKAHANDJA, EXTENSION 6, FROM 'SINGLE RESIDENTIAL' WITH A DENSITY OF 1450 TO 'INSTITUTIONAL'

In terms of the Okahandja Zoning Scheme and Part 2, Section 105 of the Urban and Regional Planning Act 5 of 2018, Kamau TPDS hereby provides public notification of the above application.

Erf 2948 is located in Okahandja Extension 6 and measures 1108m² in extent. The erf is currently zoned "Single Residential" with a density of 1450.

The owners of Erf 2948 intend to rezone the property from "Single Residential" to "Institutional" in order to continue operating their Nursing School. The purpose of the application is to align the zoning with the current land use.

Please further take note that -

a) For more enquiries regarding the rezoning, visit the Municipality of Okahandja's Department of Planning.

b) any person having objections to the proposed development concerned or who wants to comment, may in writing lodge such objections and comments, together with the grounds, with the Chief Executive Officer of the Municipality of Okahandja, and with the applicant within 14 days of the last publication of this notice, i.e. no later than 18 August 2025.

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialists has been appointed by the owner of Erf 1211, 1212, 1213 and 1214, Omuthiya Extension No. 5, to apply to the Omuthiya Town Council and the Urban and Regional Planning Board for the:

*** CONSOLIDATION OF ERF 1211, 1212, 1213 AND 1214 OMUTHIYA (EXTENSION NO. 5) INTO CONSOLIDATED PORTION X**

*** SUBSEQUENT REZONING OF THE CONSOLIDATED PORTION X, OMUTHIYA (EXTENSION NO. 5), FROM 'SINGLE RESIDENTIAL' WITH A DENSITY OF 1400m² TO 'GENERAL RESIDENTIAL' WITH A DENSITY 1250m²**

In terms of the Omuthiya Zoning Scheme, and Part 2, Section 105 of the Urban and Regional Planning Act 5 of 2018.

Erven 1211, 1212, 1213, and 1214 are located within the Omuthiya Extension No.5 township. The respective Erven are located behind Waspanandula Primary School which is northeast of and behind the Central Business District (CBD) along the Omuthiya and Ondangwa B1 main road. Extension No.5 is one of the newly established and formalized townships in Omuthiya. The respective erven which measure 450m² each in extent, are currently zoned as "Single Residential" with a density of 1400m² as per the Omuthiya Town Planning Scheme.

In order to maximise the development potential of both properties, the owner of Erf 1211, 1212, 1213, and 1214, Omuthiya, Extension No. 5, intends to consolidate Erf 1211, 1212, 1213 and 1214 Omuthiya (Extensions No. 5) into consolidated Portion X, and subsequently rezone the consolidated portion x, Omuthiya (Extension no. 5), from "single residential" with a density of 1400m² to "General Residential" with a density 1250m², to develop flats.

Please further take note that -

(a) For more enquiries regarding the rezoning application, visit the Omuthiya Town Council's Department of Planning.

(b) any person having objections to the rezoning concerned or who wants to comment, may in writing lodge such objections and comments, together with the grounds, with the Chief Executive Officer of the Omuthiya Town Council, and with the applicant within 14 days of the last publication of this notice, i.e. no later than 20 August 2025.

PUBLIC NOTICE

Kamau Town Planning and Development Specialist has been appointed by the owner of Erf 5932, Windhoek, to apply to the City of Windhoek and the Urban and Regional Planning Board for the:

- REZONING OF ERF 5932, JOHANN ALBRECHT STREET WINDHOEK FROM 'RESIDENTIAL' WITH A DENSITY OF 1900 TO 'OFFICE' WITH A BULK OF 0.4
- CONSENT IN TERMS OF SECTION 23(1) OF THE WINDHOEK ZONING SCHEME FOR FREE RESIDENTIAL BULK OF 0.2

Erf 5932 Windhoek is located along Johann Albrecht Street, in the neighbourhood locally known as Windhoek North. The property is zoned for "Residential" purposes with a density of 1900 and it measures 1095 sqm in extent.

The purpose of the application, as set out above, is to formalise the existing office building from which Trintus Consulting Engineers' office will run its daily administrative duties from and apply consent for free residential bulk in line with the stipulations of the Windhoek Zoning Scheme, to accommodate the backyard flat that exists on the erf.

Please further take note that -

(a) For more enquiries regarding the rezoning and consent application, visit the City of Windhoek's Department of Planning, 5th Floor, Town House or the applicant, at the address listed below.

(b) any person having objections to the rezoning concerned or who wants to comment, may in writing lodge such objections and comments, together with the grounds, the Chief Executive Officer of the City of Windhoek and with the applicant within 14 days of the last publication of this notice, i.e. no later than 18 August 2025.

RECORD OF PUBLIC CONSULTATIONS (NEWSPAPER ADVERTS & NOTICES TO COMPETENT AUTHORITY)

3 PUBLIC CONSULTATION

The range of environmental issues to be considered in the EIA has been given specific context and focus through consultation with authorities and I&APs. Included below is a summary of the people consulted, the process that was followed, and the issues that have been identified.

3.1 AUTHORITIES AND INTERESTED AND AFFECTED PARTIES (I&APs)

A Background Information Document was prepared by Moringa Enviro Consultants and made available to stakeholders as part of the public consultation requirements preceding the development of an Environmental Scoping Report. This was in line with the environmental regulatory requirements and project registration. During the public stakeholder meeting, concerns on the likely impacts of the existing sand mining and brick making activities were raised especially on whether the mining activities posed any health risk to the community and the underground water table.

The following authorities and IA & Ps are involved in the EIA process:

National and Regional authorities:

- Ministry of Mines and Energy
- Ministry of Environment, Forestry and Tourism

I&APs:

Public adverts were put in the newspaper (The Windhoek Observer and New Era), however the call for registration as I&APs did not yield any (as there were no parties that showed interest)

3.2 STEPS IN THE CONSULTATION PROCESS

Table 3 below sets out the steps in the consultation process that has been conducted to date.

Table 2: Consultation Process with I&APs and Authorities

TASK	DESCRIPTION	DATE
Notification-regulatory authorities and I & APs		
I & APs identification	Newspaper notifications calling for registration as Interested and Affected Party of the proposed project, published in the Confidante and The Villager Newspapers	08 – 14 August 2025
Newspaper advertisements	Newspaper notifications calling for Public Comment on the Scoping Report by Interested and Affected Party of the proposed project, published in the Confidante and The Villager Newspapers	15 – 22 August 2025
Public Meeting and Review of Scoping report		
Public Consultation Meeting with I & APs and authorities	Public meeting with registered I & APs held at the Opuwo and comment / input obtained	September 2025
I & APs and authorities (excluding MET) review of scoping report	Scoping Report availed to the public for comments and input prior to submission to the Competent Authorities	01 – 16 November 2025

Mineral License/Rights Hoarding Will Not Be Allowed- Ithete

Photo: Contributed

Nghiinomenwa-vali Hangala and Patemaoshela Lukolo

The government has informed foreign and local investors interested in the exploration and mining or speculators that it will no longer tolerate the hoarding of licences for purposes unrelated to national development.

The country's Deputy Prime Minister, who also doubles as Minister of Industries, Mines and Energy, Natangue Ithete, stated this during the opening session of the 2025 Mining Expo. He also indicated that his Ministry has already issued notices to non-compliant mineral rights holders and will soon engage them.

The Deputy Prime Minister indicated that there are several licences issued where no activity has commenced.

"This must change, because the mineral rights are granted with the intention of production," he stated.

Ithete indicated that Namibia's minerals are a national asset.

"They are our hope for social progression and improved livelihood. It is therefore our collective responsibility to ensure that the exploitation of these resources results in tangible benefits for all Namibians," he said.

Ithete also promised that under his leadership at the Mining Ministry, they will prioritise policy frameworks that strengthen local ownership, build capacity, and promote value addition.

While updating that the Ministry is currently reviewing the Minerals Bill and will soon commence stakeholder consultations, especially in key regions where exploration and mining are taking place.

"This process is essential to ensure that our laws are fit-for-purpose and reflect the ambitions of an equitable and modern mining industry," the DP stated.

Furthermore, the government is also consulting with industry stakeholders on mechanisms that will promote 51% Namibian ownership in new mining ventures.

"We believe that local empowerment is not only a matter of social justice, but also a cornerstone for long-term stability and sustainability in the sector," Ithete stated.

He warned that mining must not become an elite-driven activity disconnected from ordinary Namibians.

"Let us mine not only for profit, but for our people," he urged. "Our minerals must uplift lives, not just in boardrooms, but in the most remote areas of our country."

Namibia's 12th Mining Expo and Conference opened on 5 August at the Windhoek Showgrounds with strong calls for a mining sector that not only drives economic growth, but also delivers real benefits to all Namibians.

The event has also been extended to three full days for the first time, reflecting its growing role in shaping national mining policy and investment direction.

In a keynote speech delivered on behalf of President Netumbo Nandi-Ndaitwah, Carlo Lord Muhamed McLeod, Special Advisor in the Presidency, commended the mining sector's evolving role as a partner in inclusive development.

He revealed that in 2024, the industry contributed N\$52.3 billion in revenue, created over 9,400 permanent jobs, 97% of them held by Namibians, and spent N\$23.94 billion on local procurement.

"Namibia's mining sector is not only thriving, it is evolving into a more inclusive, innovative, and forward-looking industry," McLeod said.

"Let us work together to unlock the full potential of our mineral wealth, not just for today, but for generations to come."

George Botshiwe, President of the Chamber of Mines of Namibia, opened the Expo by highlighting the sector's resilience despite global challenges such as falling diamond prices and rising competition from lab-grown alternatives.

Although the industry recorded a 1.2% contraction in 2024, it maintained a strong 13.3% contribution to GDP.

"The achievements of this sector reflect its alignment with national goals, particularly under NDP6, which prioritises industrialisation, inclusivity, and sustainable growth," Botshiwe said.

He also stressed that while direct employment numbers in mining may be modest, the sector supports thousands more jobs indirectly through its local procurement.

In 2024, mining companies spent nearly half of their total revenue, 46.2% on Namibian goods and services.

"Beyond ownership in mining operations, the greatest opportunity for Namibians lies in entrepreneurship within the supply chain," he added, pointing to tools like the Database of Mining Inputs and Services, launched at the 2024 Expo, as enablers of local participation.

The Chamber also reaffirmed its commitment to inclusivity by providing free public access to the Expo and allocating complimentary booths to institutions such as UNAM, NUST, and various industry associations, including Women in Mining Namibia.

Investor interest remains high. Namibia was ranked the fourth most attractive African destination for mining investment in the latest Fraser Institute Survey.

Major uranium and gold projects such as Bannerman Energy's Etango-8, Deep Yellow's Tumas, and Osino Resources' Twin Hills are moving toward development, further strengthening Namibia's role in global resource markets.

EAC, SADC, AU Meet to Resolve DRC Conflict

Photo: Contributed

Mathias Hangala

The East African Community (EAC), Southern African Development Community (SADC), and the African Union (AU) convened on Thursday in Nairobi for high-level talks aimed at resolving the ongoing security crisis in eastern Democratic Republic of the Congo (DRC).

The meeting was jointly chaired by Kenyan President William Ruto (EAC chairperson) and Zimbabwean President Emmerson Mnangagwa (SADC chairperson), bringing together key delegates and facilitators from the EAC, SADC, and AU.

The gathering focused on mobilising resources to support peace efforts, with a particular emphasis on humanitarian aid.

The African Union (AU) was tasked with overseeing the coordination of these resources to ensure a timely and effective response to the needs of civilians affected by the conflict.

This development comes on the heels of the Democratic Republic of the Congo-Rwanda peace agreement, also known as the Washington Accord, which was signed on June 27, 2025, in Washington, D.C.

The treaty, brokered by the United States (U.S) and Qatar, was signed by the foreign ministers of the DRC and Rwanda.

However, the Rwandan-backed rebel group, the March 23 Movement (M23), was not a party to the agreement, though it remains a central actor in the conflict.

The Washington Accord outlines a 90-day timeline for the withdrawal of Rwandan troops from eastern DRC and calls on the Congolese government to cease its support for the Democratic Forces for the Liberation of Rwanda (FDLR), a militia opposed to the Rwandan government.

It also proposes a regional economic integration initiative involving both countries, with support from the U.S.

Eastern DRC has been plagued by instability since the 1990s, when Hutu militias fled into the region following the Rwandan genocide.

The region is now host to more than 100 armed groups, including M23, with many analysts attributing the persistent conflict to ethnic rivalries, foreign interference, and competition over the area's vast natural resources—some of which are critical for technologies such as computers and drones manufacturing.

Namibia has also taken a firm stance. Speaking at the recent SADC Ministerial Committee of the Organ on Politics, Defence and Security, held in July in Dar es Salaam, Tanzania, Namibia's Minister of International Relations and Trade, Selma Ashipala-Musavyi, condemned the role of Rwanda and M23 in destabilising the DRC.

She reaffirmed Namibia's commitment to supporting peace efforts in the region and emphasised the importance of humanitarian aid, citing it as the key focus area.

The human cost of the conflict remains staggering. It is estimated that over 6 million people have died as a result of the violence since the 1990s, with more than 900,000 displaced.

Some have fled as far as Namibia, seeking asylum in camps like the Osire Refugee Camp in the Otjozondjupa Region. Reports indicate that some asylum seekers have been denied refugee status, raising further humanitarian concerns.

As regional and international stakeholders work together to implement the Washington Accord and navigate the complex web of alliances and hostilities in eastern Congo, the hope remains that sustainable peace and stability can finally be achieved in one of Africa's most conflict-ridden regions.

PART B: SCOPE OF THE ENVIRONMENTAL CLEARANCE CERTIFICATE

1. The environmental clearance certificate is for:

Application for Environmental Clearance Certificate for Proposed Mineral Exploration Activities on Exclusive Prospecting License (EPL) 9437 in respect to Nuclear Fuel Minerals, Precious Metals, Base and Rare Metals, Industrial Minerals and Dimension Stones, Erongo Region Namibia

2. Details of the activity(s) covered by the environmental clearance certificate:

[Note: Please attach plans to show the location and scope of the designated activity(s), and use additional sheets if necessary:

Title of Activity: Proposed Mineral Exploration Activities in respect to Nuclear Fuel Minerals, Precious Metals, Base and Rare Metals, Industrial Minerals and Dimension Stones

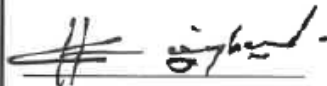

Nature of Activity: Principally, the proponent intends to explore (desktop geological study, collection of bulk samples (either by core-drilling and or trenches) and identification of previous activity in the area where the mineral of interest were conducted).

Location of Activity: On Exclusive Prospecting License (EPL) 9437, Erongo Region

Scale and Scope of Activity: Feasibility Prospecting Programme

PART C: DECLARATION BY APPLICANT

I hereby certify that the particulars given above are correct and true to the best of my knowledge and belief. I understand the environmental clearance certificate may be suspended, amended or cancelled if any information given above is false, misleading, wrong or incomplete.

Dear Sir/Madam

EXTENSION OF ECC SUBMISSION DEADLINES (EPL APPLICATIONS 9415, 9437, & 9453).

I refer to the above-mentioned subject matter.

I acknowledge receipt of your letter dated 27 April 2025, in which you requested for an extension of the ECC submission deadlines, citing pending feedback from the Heritage council.

Please note that the submission period for the ECCs has been extended by six (6) months from the initial due date assigned to each licence. I believe this period should be sufficient to finalize all the pending issues and the subsequent submission of the ECC.

Yours sincerely,

Ministry of Industries, Mines and Energy
 Mining Commissioner
 Department of Mines

NOTICE TO APPLICANT OF PREPAREDNESS TO GRANT APPLICATION FOR EXCLUSIVE PROSPECTING LICENCE No. 9453.

In terms of Section 48(4) of the Minerals (Prospecting and Mining) Act, No. 33 of 1992, notice is hereby given that the Minister is prepared to grant your new application, lodged on **11 May 2023**, for an exclusive prospecting licence in respect of **Dimension Stone, Base and Rare Metals, Industrial Minerals and Precious Metals** Groups of Minerals over an area of land as shown in the attached diagrams, subject to the terms and conditions contained in the attached schedule, which terms and conditions supplement the terms, conditions and provisions of the said Act.

Your attention is drawn to the provisions of Section 48(5) of the said Act, which requires that within one (1) month from the date of this notice, written acceptance of such terms and conditions must be received by the Commissioner, failing which the application will be deemed to have lapsed.

Kindly acknowledge your acceptance of such terms and conditions by

- (a) completing the section at the bottom of this notice.
- (b) ~~initialling each page of the schedule and the diagrams; and~~
- (c) ~~returning such signed and initialed documents to the Commissioner.~~
