Mr. Timoteus Mufeti

The Environmental Commissioner
Ministry of Environment, Forestry and Tourism (MEFT)
Private Bag 13306
Windhoek

Dear Mr. Mufeti,

**SUBJECT: CONSENT AND SUPPORT FOR THE PROPOSED UPGRADING OF
DR3630 ROAD FROM GRAVEL TO LOW VOLUME SEAL (LVS) STANDARD,
OSHIKOTO ROAD REGION**

The Ministry of Works and Transport through the Directorate of Transportation Infrastructure hereby submits the Environmental and Social Impact Assessment (ESIA) reports for the proposed upgrading of DR3630 road (Onyati – Onyuulaye – Onkumbula) in Oshikoto region.

The Ministry of Works and Transport recognizes the importance of developing and maintaining a good road network particularly in rural areas across the country. The construction and upgrading of this road is expected to significantly enhance the economic and social well-being of communities by:

- Improving access to essential services such as healthcare, education and government offices.
- Reducing travel times
- Lowering vehicle operating and maintenance costs
- Access to markets and creation of employment opportunities

This project is of high national importance. We therefore kindly request your office to expedite the review process of the submitted ESIA documents and response on the Environmental Clearance Certificate (ECC) application.

Yours sincerely,

Titus Ndove
Executive Director
