Comment/ issue No.	Commenter name & issue/comment/question	Response and name of responder:
1.	<p>The Traditional Authority requested that the consultants proceed with the formal presentation regarding the EPL. However, the conservancy representative (<b>Kauta Tjijenda</b>) expressed a preference they will explain to the traditional authority leadership and engage with the Proponent. The discussion became focused on the Proponent's credentials, nationality, and the legal basis for their rights over the EPLs.</p> <p>The proponent and consultants were excused so they can discuss.</p>	<p>Zanzan Mineral Resources: The Proponent outlined the legal procedure for obtaining an EPL from the Ministry of Mines and Energy. He also provided an overview of the Environmental and Social Assessment (ESA), including its purpose, process, and the role of public participation. Furthermore, he clarified the responsibilities of the consultants and emphasized that the ESA is a statutory requirement aimed at ensuring that community concerns are identified and considered prior to the commencement of any activities.</p>
2.	<p>A dispute arose regarding the meeting's protocol in relation to a consent letter that was issued. The TA insisted on hearing the full environmental presentation, while the Otuzemba Conservancy chairperson (<b>Kauta Tjijenda</b>) declined to proceed with the technical agenda, stating they would provide written feedback at a later stage.</p>	<p>The Consultants acknowledged the internal administrative tensions and concluded the meeting.</p>

### **FINAL REMARKS AND CONCLUSION OF THE MEETING**

In closing, Mr. Wilbard Angula expressed appreciation for the community's time. The Conservancy leadership declined to provide an immediate verbal resolution, committing instead to providing a formal written response once they have conducted an in-house deliberation to finalize their position.

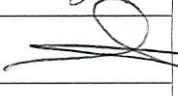

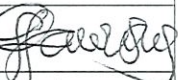

The meeting adjourned at 14h00.
