TODAY IS... HUMANITARIAN DAY

This year's World Humanitarian Day highlights the human costs arising from the climate crisis. The threat to humanity, having experienced severe droughts and flooding in the last 10 years. Many people have been left without access to enough food and water as a consequence, painting a worrying picture for the decades to come. With this, hope remains for all Namibians to join forces towards adapting for the future crisis.

Andrada Mining CEO Anthony Viljoen described the completion of the plant as a key milestone in advancing the miner.

"The completion of the jig plant on time and within budget is a smart, low-cost upgrade that will immediately boost Uis tin production on the completion of commissioning. The plant is a key milestone towards doubling production and positions Andrada well to capture the benefits of a robust and strengthening tin market," Viljoen said.

This positions Andrada well to capture the benefits of a robust and strengthening tin market.

Anthony Viljoen
Andrada CEO

The construction of the jig plant, located adjacent to the existing tin processing facility, has been completed, with commissioning scheduled for the last week of August 2025.

The modular design allows for scalable expansion while operating independently, ensuring uninterrupted production at the primary processing plant. The Jig Plant is designed for a nameplate capacity of 80 to 100 tonnes

Hello Future Retail Chief Executive Officer

Join our team of diverse talents in an adaptable environment that fosters curiosity and collaboration, enabling you to realize your potential and drive effective change

Role Overview:

To lead and deliver sustainable business performance and value in relation to retail banking solutions, including services, products and channels.

Are you someone who can:

- Align budget with strategy to support short-term growth and long-term sustainability (10-year outlook).
- Set strategic direction that balances immediate needs with long-term shareholder value.
- Foster key relationships and drive innovation to stay competitive and industry-relevant.
- Identify risks and opportunities, address challenges, and communicate clear strategic vision.
- Develop human capability strategy for sustained performance and meaningful growth.

You will be an ideal candidate if you meet the below minimum requirements:

- Relevant post graduate degree or professional qualification in Commerce, Engineering, Economics, Sciences or related field.
- 10 years experience in Financial Services or similar environment including 3 to 5 years at executive management level.
- High integrity and discretion.
- Strong relationship management, customer service culture, understanding of Risk and Compliance and financial management.

Are you interested to take the step toward this exciting opportunity?
We look forward to engaging with you further. Apply now!

Closing Date: 29 August 2025

All applications must be done via the Group's application portal.

S&P upgrades Kenya's credit rating to 'B' on easing liquidity risks

INSIGHTS

Standard & Poor's (S&P) has upgraded Kenya's credit rating to 'B' on the basis of easing liquidity risks. The upgrade reflects the company's improved financial performance and its ability to manage its debt obligations. S&P also noted the company's strong operational performance and its commitment to transparency.

The S&P logo is shown in the image.

Review of Environmental Impact Assessment

The Review of Environmental Impact Assessment (EIA) for the proposed project has been completed. The assessment identifies potential environmental impacts and proposes mitigation measures to avoid, minimize, and compensate for these impacts. The project is expected to proceed once all necessary approvals are obtained.

Update and Revitalisation of TSCSA Database to M&E Systems

The TSCSA Database has been updated and revitalised to M&E Systems. This update includes new data and information, ensuring that the database remains accurate and up-to-date. The revitalisation process involved a thorough review of the existing data and the implementation of new data entry procedures.
