Dear Stakeholder / Interested & Affected Parties

I would like to invite you to consider three mining projects in the Kunene Region. The three project owners have mining claims a few kilometres from Otjimuhaka (i.e. formerly known as Swartbooisdrif). As part of the environmental assessment process, the proponents are required to procure the services of an environmental consultant to engage with stakeholders and interested and affected parties. This is your opportunity to comment on and raise any concerns about the project. I have attached the three Background Information Documents for each of the mining projects. You are welcome to make single or multiple statements for either a single, combination of, or each project separately.

The notices of a public meeting are being published in the national press. The public notice is attached to this email as well. If you wish to attend the public meeting you are welcome to do so. If you have a representative who can attend on your behalf please send them to the meeting. My colleague, Lovisa Amwele, will be making contact with regional ministries / stakeholders to hold focus group meetings / discussions about the mining projects.

Thank you in advance for your participation in the environmental assessment process.

Kind regards
Philip Hooks
