

## 2.4. PROJECT LOCATION

The EPL 9752 is situated about 55 km North-west of Witvlei Settlement, in the Omaheke Region (**Figure 3**, locality map and **Table 3** corner coordinates). The dominant land-use in the area is predominantly consisting of commercial livestock farms (listed in **Table 4**) and a few that were partially converted into game-farm with the aim of accommodating tourism activities.

The EPL is directly accessible via the B6 (Trans-Kalahari highway) and then the C29 district gravel road, while other section of the EPL will only be accessed by foot to ensure minimum impacts on the receiving environment.

## 2.4. SUPPORTING INFRASTRUCTURE

### 2.4.1 Basecamp

Given the location the Exclusive Prospecting License (EPL) in a commercial area, a suitable site must be identified in collaboration with all relevant authorities including the Property / Farm Owners to decide on a basecamp location. The camp site will consist of tents, caravans and/or make-shift buildings and temporary ablution facilities.

This is a key and necessary management exercise to mitigate and reduce potential conflict with the property owner in regard to wildlife and livestock management protocols. Critically, it is highly recommended that temporary ablution facilities must be provided and limited to within the existing base-camp footprint pre-identified and agreed upon by the stakeholder in the proposed development, and the necessary authorization must be obtained prior to
