

CAMP KWANDO

APP 250925-006485

MASHI CONSERVANCY, ZAMBEZI REGION

LOCALITY, LAYOUT and GPS CO-ORDINATES

Camp Kwando, which is situated on the eastern embankment of the main channel of the Kwando River wetland ecosystem, can be reached by vehicle from Kongola along the C49 (**Fig. 1**). The vegetation at Camp Kwando is mostly comprised of deciduous trees and provides a refuge to a variety of birds and in the river, to the hippo and crocodile.

Coordinates for Camp Kwando (reception) is as follows with a carbon footprint expressed in ha:

NAME	LATITUDE (South)	LONGITUDE (East)	AREA (ha)
Camp Kwando	18.04337	23.32101	12.5

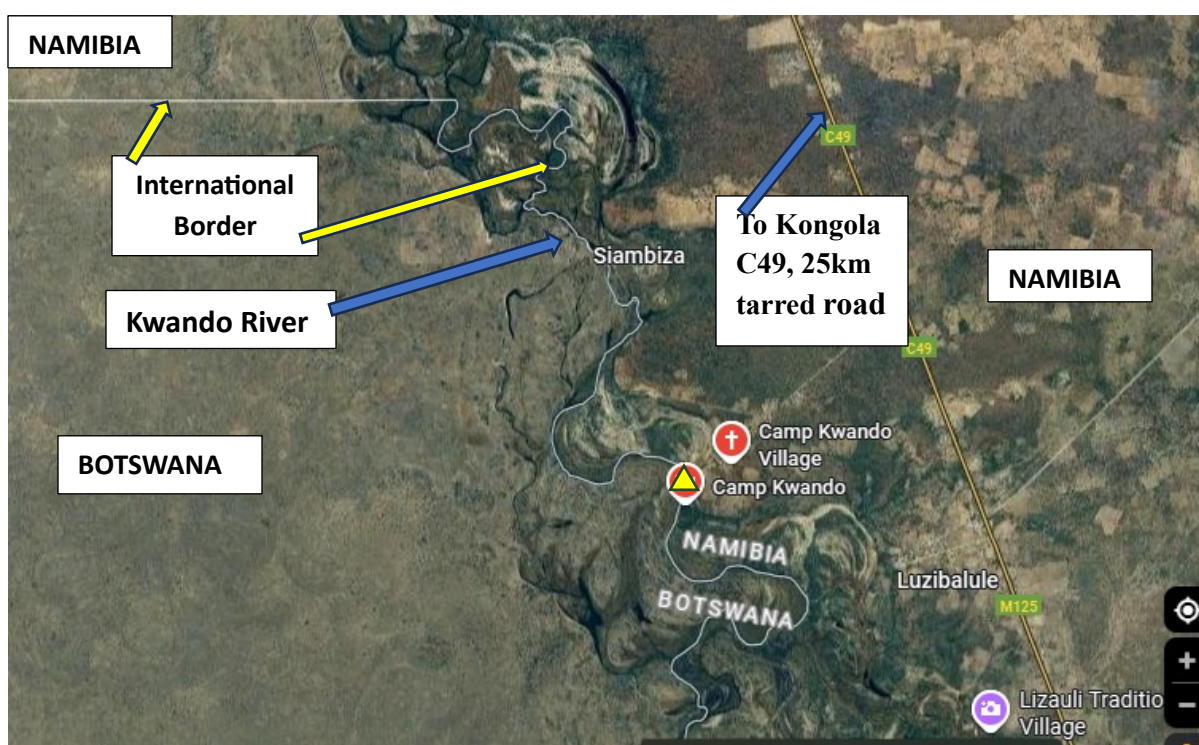

Figure 1: The location of Camp Kwando (▲), east of Botswana along the Kwando River (google maps).

Camp Kwando

Nambwa Camp (Fig. 2) is being referred to as the place “where the river sings” and is located 2,2km from the C49 tarred road to Kongola. Along the western banks of Camp Kwando, herds of buffalo, lechwe and elephant can be seen quenching their thirst. Camp Kwando offers guests 14 en-suite chalets and 3 tree houses with stunning views across the Kwando River.

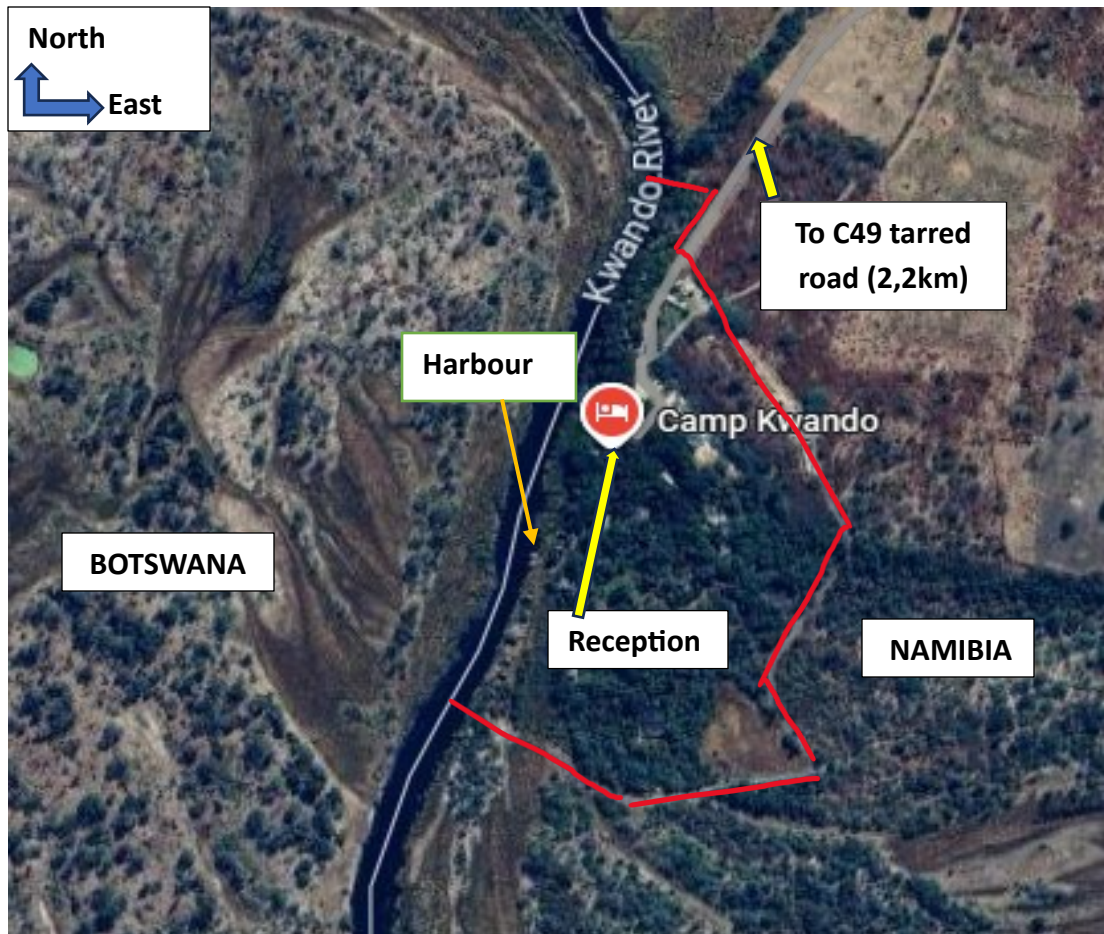

Figure 2: Satellite image indicating the location of Camp Kwando (Red Block), on a 12.5ha raised landscape on the eastern bank of the Kwando River, (google maps).

Camp Kwando has a basic infrastructure which blends into the environment and includes: a swimming pool, borehole, reception, guard house at gate entrance, spacious workshop, restaurant with deck, bar and kitchen, an office and a reception. The infrastructure has a minimal “carbon footprint” on the environment. A detailed layout of Camp Kwando, which indicates the perimeter boundaries and basic infrastructure on the 12.5ha plot, is provided in Fig. 3

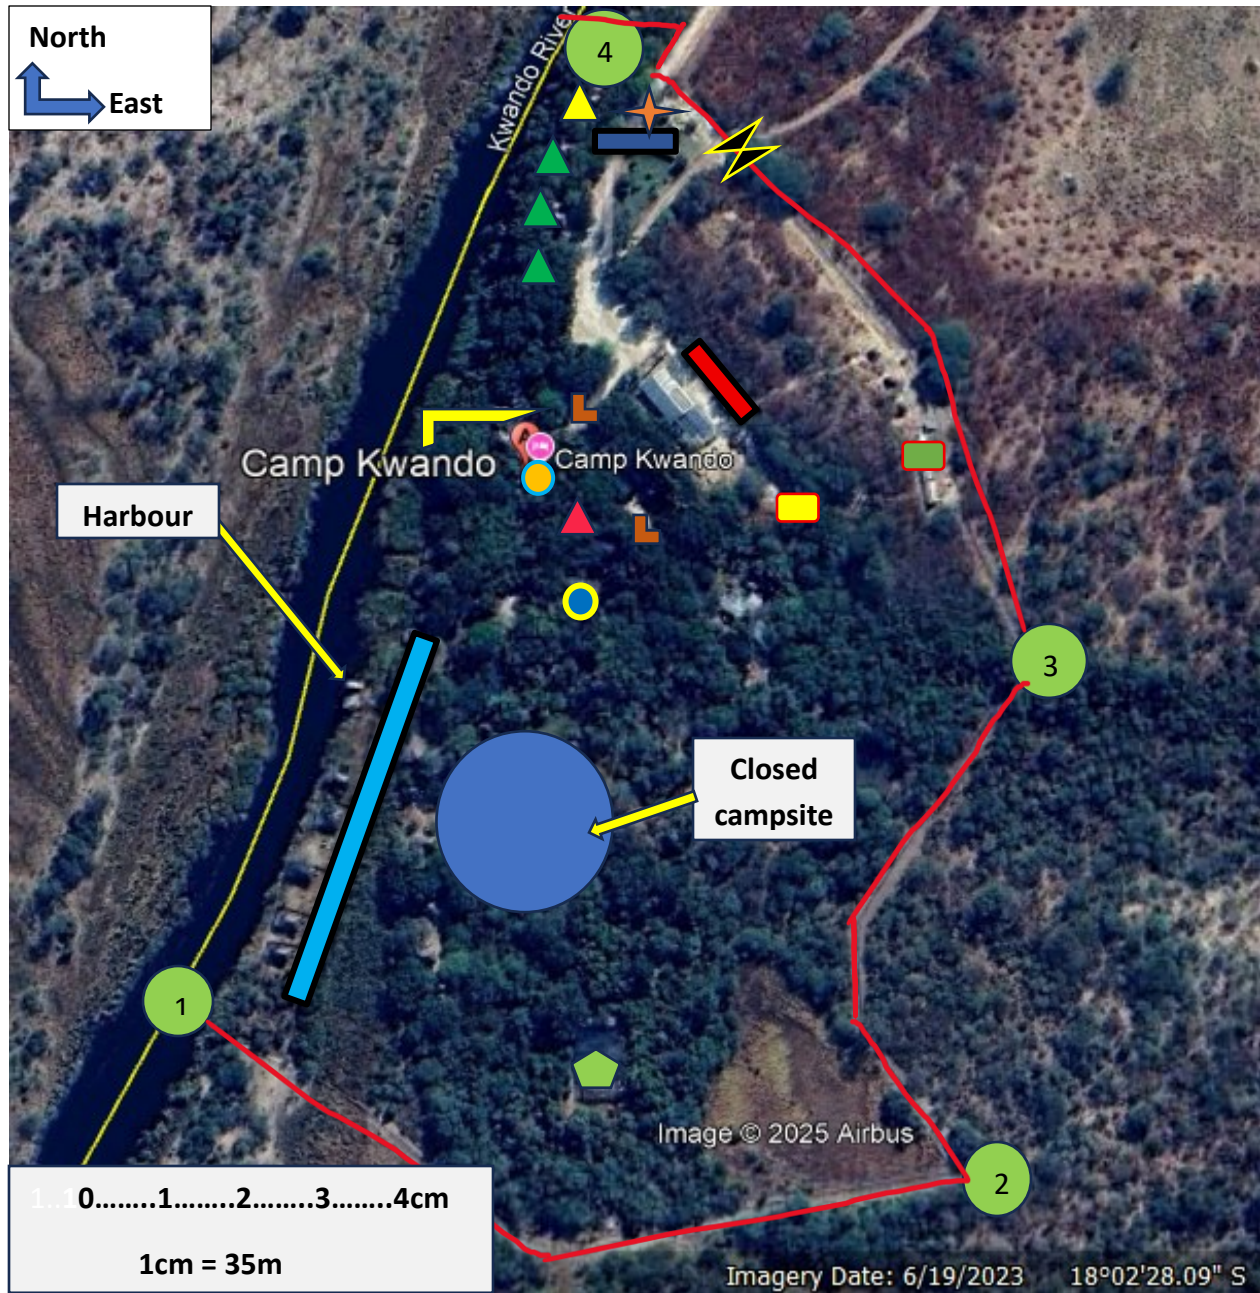

Figure 3: Satellite image (2023), indicating the location of Camp Kwando with a detailed layout of the current infrastructure.

Note: Campsites at Camp Kwando have been closed and shifted to Bush Camp 25 km north near Kongola
