Dear Sir/Madam

Objection: PROPOSED PROSPECTING AND EXPLORATION ACTIVITIES ON EXCLUSIVE PROSPECTING
LISENCE (EPL) NO 10505 LOCATED NEAR KHORIXAS IN THE KUNENE REGION

1. I am writing to formally object to the proposed exploration activities on the communal land where I conduct my traditional farming and hospitality businesses.

2. I have been allocated this land for traditional farming by the Kunene Land Board in 2019, which has been ratified for this purpose. I farm small stock in this tranquil area, and the planned exploration, including the digging of trenches, will cause fear and trauma to my livestock and disrupt my farming activities.

3. Furthermore, a portion of this same area has been allocated to me for a hospitality and tourist attraction business. I am currently in the process of a phased construction of this business, which includes an Olympic-size swimming pool that has already been built.

4. The dust particles from your exploration will negatively impact this pool and other planned facilities. Conducting exploration in this mountainous area is not viable as it is directly against the nature of the hospitality services I intend to provide.

5. For these reasons, the proposed exploration is in direct conflict with my established and ongoing activities on this land. I therefore formally object to your plans for this area. Figure 1 indicates the two areas where I have interest.

6. It is against this principle that I object the proposed idea to prospect.

Yours sincerely,

B. I //Khaibes
