Dear Chief Gaseb,

**RE: REQUEST FOR TRADITIONAL AUTHORITY (TA) CONSENT FOR EXPLORATION ACTIVITIES ON EPL
9887.**

I Naftal Luuli Shailemo A major Namibian male with the ID No: 86030200097, applied for an Exclusive Prospecting License (EPL) no. 9887. The Ministry of Industry, Mines and Energy MIME awarded a provisional grant letter pending acquisition of environmental clearance certificate ECC.

Against this backdrop, and following our meeting held on 17 March 2026 at the Council of Traditional Leaders' office in Windhoek attended by my representative, SS Consultants CC, on my behalf we formally requested your consent to support our environmental scoping assessment submission.

The consultants have since submitted the Environmental Scoping Assessment (ESA) reports to the Ministry of Environment, Forestry and Tourism (MEFT). As part of the requirements, I am obligated to submit consent from the relevant Traditional Authority, in this case, the !Oe-ǀGan Traditional Authority. Therefore, to complete the Environmental Clearance Certificate (ECC) evaluation process, I must provide a consent letter from the affected Traditional Authority.

I respectfully request that your office issue this consent letter, which will allow us to secure the ECC from the Environmental Commissioner.

Thank you for your continued support.

Yours Sincerely

Naftal Luuli Shailemo,
Proponent
