FORMAL NOTICE TO TRIPPLE J ENERGIES ADJACENT NEIGHBOURS

Subject: Environmental Impact Assessment (EIA) for the Existing Liquefied Petroleum Gas (LPG) Bulk Storage and Filling Facility in Rundu

Rundu Town Council is hereby notified that Conserver Investments, appointed as the Environmental Consultant by the proponent Tripple J Energies. The request was to conduct an Environmental Impact Assessment (EIA) for the existing Liquefied Petroleum Gas (LPG) bulk storage and filling facility operating within Rundu. This assessment is being carried out in accordance with the Environmental Management Act (No. 7 of 2007) and its Regulations.

To comply with statutory public participation requirements, the project was publicly advertised in *The Namibian* and *New Era* newspapers on 3 and 10 November 2025. In addition, public notices were displayed at five key locations: the Old Mall, New Mall, Rundu Town Council Offices, the Open Market, and Tripple J Energies' facility. A Basic Information Document (BID) was distributed to interested and affected parties to ensure transparency and allow stakeholders to familiarise themselves with the project.

A formal Public Participation Meeting was held on 21 November 2025 at the Rundu Town Council Chambers. This meeting provided an open platform for stakeholders and community members to present their views, raise concerns, and contribute recommendations regarding the existing LPG facility.

This notice confirms that all required public consultation steps have been adhered to. The BID remains available upon request for any additional stakeholders who may still wish to review project details. Following the completion of the consultation process, Consever Investments will submit a formal application for an Environmental Clearance Certificate to the Environmental Commissioner of the Ministry of Environment Forestry and Tourism.

Your corporation throughout this process is acknowledged and appreciated.
