

2.4. PROJECT LOCATION

The EPL 10177 is situated about Six (6) km South-east of the Kombat Town, within the Otjozondjupa Region (**Figure 3**, locality map and **Table 3** corner coordinates). The dominant land-use in the area is predominantly consisting of commercial livestock farms (listed in **Table 4**) and a few that were partially converted into game-farm with the aim of accommodating tourism activities.

The EPL is mainly accessible via the B1 connecting the Otavi Town to Grootfontein and also the B8 (Trans-Zambezi Highway) and D2806 District gravel roads and other section of the EPLs may only be accessed by existing farm tracks or by foot to ensure minimum impacts on the receiving environment.

2.5. SUPPORTING INFRASTRUCTURE

2.5.1 Basecamp

Given the location the Exclusive Prospecting License (EPL) in a commercial area, a suitable site must be identified in collaboration with all relevant authorities including the Property / Farm Owners to decide on a basecamp location. The camp site will consist of tents, caravans and/or make-shift buildings and temporary ablution facilities.

This is a key and necessary management exercise to mitigate and reduce potential conflict with the property owner in regard to wildlife and livestock management protocols. Critically, it is highly recommended that temporary ablution facilities must be provided and limited to within the existing base-camp footprint pre-identified and agreed upon by the stakeholder in the proposed development, and the necessary authorization must be obtained prior to installation of any such facility. The following supporting infrastructures and services will be required:
