PUBLIC NOTICE

HARMONIC

Take note that HARMONICTOWN PLANNING CONSULTANTS CC, Town, and Regional Planners, on behalf of the owners of the Swakopmund Municipality and the Urban and Regional Planning Board for the:

- Rezoning of Erf No. 2279, Turmain Street, Swakopmund (Extension 8), from "Single Residential" with a density of 1:900 to "General Residential Z" with a density of 1:250; and
- Consent to commence with the proposed development while the rezoning is in progress.

Erf 2279 Turmain Street (Extension 8) measures 11000m² in extent and is zoned "Single Residential" with a density of 1:900 as per the Swakopmund Zoning Scheme. It is located in Turmain Street, Vinea (Extension 8). The owners intend to rezone Erf 2279 to accommodate more rental units to provide rental accommodation that is in line with the Swakopmund Municipality's regulations. The proposed rezoning will allow the owner to accommodate additional units on the Erf thus, optimizing the use of the Erf to its full potential and catering to the housing demand in Swakopmund.

Sufficient parking for the development will be provided in accordance with the requirements of the Swakopmund Zoning Scheme. The locality plan of the Erf lies for inspection on the town planning notice board at the Swakopmund Municipality and at Harmonic Town Planning Offices, 76B Pasteur Street, Windhoek west.

Any person objecting to the proposed use of the land as set out above may lodge such objection together with the grounds thereof, with the Swakopmund Municipality and with the Applicant in writing within 14 days of the last publication of this notice (final date for objections is: **Thursday, 09 October 2025**).

VACANCY

ELIKO DIAMONDS PTY LTD

We're Hiring

We invite candidates who are passionate and experienced for the required positions:

1. General Manager
2. Triple XXX Diamond polisher in Hearts and Arrows and specialized shapes
3. Specialized Evaluator for high value and big stones
4. Quazer Laser machine operator
5. Galay scanner operator
6. Specialised Fancy shapes operator
7. Saring Planner operator
8. Ap Cutting machine operator
9. Auto Dialt. Machine operator

Requirement to apply for the job:

1. Grade 12 and above
2. Certified hard copy of ID
3. Fluent in English
4. Police Clearance Certificate (not older than 6 months or receipt)
5. Experience letter / Training Certificate
6. Unadvantaged citizens are encouraged to apply

How to apply: email your CV and supporting documents to - adm@eliko.com

Due date for application: 09 September 2025 at 10:00 (CAT)

PUBLIC NOTICE

Please take note that Kamau Town Planning and Development Specialists and Environmental Consultants has been appointed by the owner of the Remainder of Portion B of the Lüderitz Town and Townlands No. 11, to apply to the Lüderitz Town Council, the Urban and Regional Planning Board, and to the Environmental/Commissioner for the:

- (1) Subdivision of the Remainder of Portion B of the Lüderitz Town and Townlands No. 11 into Portion A, Portion B and Remainder of Portion B of the Lüderitz Town and Townlands No. 11.
- (2) Rezoning of the proposed Portion A from "Undetermined" to Residential Z with a density of 1:400.
- (3) Rezoning of the proposed Portion B from "Undetermined" to "Street".
- (4) Alteration of the Boundaries of Lüderitz Proper to include Portion A and B.
- (5) Request for the waiver of the Bettement and Endowment Fees in Lieu of street creation on Portion B.
- (6) Consent to begin with construction while the subject application is in progress.

In accordance with the Lüderitz Zoning Scheme, Part 2, Section 106 of the Urban and Regional Planning Act (2016 Act No. 5 of 2016), the Environmental Management Act, 2007 (No. 7 of 2007), and the Environmental Impact Assessment Regulations (Government Notice No. 30 of 6 February 2012), Kamau TPDS hereby provide public notification of the above application.

The owners of the proposed subdivided Portions A and B intend to rezone Portion A to Residential Z and Portion B to Street. They also intend to alter the boundaries of Lüderitz Proper to include the proposed subdivided Portions A and B. In addition, the owners wish to commence construction while this application is being processed.

The purpose of the application is to enable Rocky Bay Investment CC, who were allocated Portion A, to construct workers' accommodation on the proposed Portion A and to create a street on the proposed Portion B. The remainder of Portion B within Lüderitz Town and Townlands No. 11 will remain unchanged.

Please further take note that -

- a) For more enquiries regarding the subdivision, rezoning, consent, waiver of bettement and endowment fees and alteration of boundaries, kindly visit the Lüderitz Town Council's Department of Planning.
- b) any person having objections to the proposed development or who wants to comment, may lodge objections and comments in writing, together with the grounds, with the Chief Executive Officer of the Lüderitz Town Council, and with the applicant within 14 days of the last publication of this notice, i.e. no later than 09 October 2025.

REGISTRATION OF INTERESTED AND AFFECTED PARTIES (I&AP) AND SUBMISSION OF COMMENTS:

Provided that the Lüderitz Town Council provisionally grants consent for an Environmental Impact Assessment (EIA) to be conducted for the creation of a street on the proposed Portion B, all interested and affected Parties (I&AP) are hereby invited to register and submit their comments, concerns or questions in writing on or before 09 October 2025 in line with Namibia's Environmental Management Act, 2007 (No. 7 of 2007) and EIA regulations (Government Notice No. 30 of 6 February 2012).

Copper Project ...

Continued From Pg 1

Nghinomenwa-vali Erastus

According to the released Preliminary Economic Assessment (PEA) of the Haib Copper Project in southern Namibia, the project will require 20 million cubic metres of water, and this can potentially be piped from Namibia's Neckartal storage dam (a distance of 260km between the two).

The developer of the project, Koryx Copper Inc, released the results of the PEA this week.

Revealing their water requirements per year, they said it would be from a hybrid solution of Orange River water (30km distance) and potentially piped from Namibia's Neckartal Dam.

Furthermore, the results have revealed that the mine will require 150MW of maximum power demand to be sourced through the nearby Namibian grid, plus supplementary hybrid renewable power and battery energy storage.

The mine is projected to have a production rate of 92,000 tonnes per annum, an upfront capital cost of US\$1.56bn, and a projected mine life of 23 years.

The Haib is a porphyry copper exploration project located in the Karas Region of southern Namibia.

Commenting on the PEA, Heye Daun, Koryx Copper's president, stated that they are encouraged by the good results of this PEA, notwithstanding the fact that it is still based on the 2024 Mineral Resource model and does not yet reflect all of the notable drill results produced since late 2024.

He said the project is made unique by a number of attributes: simplicity, scalability, low risk, ideal location at low altitude, close proximity to water and power infrastructure, with low capital intensity and operating costs.

Daun also added that the project has a predictable permitting environment and a lack of any technical, environmental, or social fatal flaws.

"This suggests that this project could be rendered shovel-ready, with an advanced feasibility study, secure water and power supply, and most major permits in place within just a few years," he stated.

Koryx Copper Inc. has a 100% interest in Deep South Mining Company (Pty) Ltd., a Namibian subsidiary, which in turn has a 100% interest in Haib Minerals (Pty) Ltd, which holds the exploration rights to the Haib Project.

Exclusive Prospecting Licence 3140 ("EPL 3140") allows for the exploration of base, rare and precious metals over an area of 36,589 hectares.

The Haib Mineral Resource estimate included information obtained from diamond drillholes completed between 1963 and 2024, with drilling comprising a total length of 78,934 m.

In addition, one underground adit was channel sampled over a length of 126 m.

According to the project developer, the historical data was validated, and all data collected by Rio Tinto Zinc (120 drillholes from 1972 to 1975), Great Fitzroy Mines (13 drillholes from 1995 to 1999), and Teck (32 drillholes in 2010) were accepted for use in the mineral resource estimate.

Capital Continues to Flood Govt Debt Instruments

...N\$3.3 billion in Capital Sought Space on TBs this Week

Nghinomenwa-vali Hangata

The tender result of the three Treasury Bills (T-Bills) auction that was carried out yesterday shows that investors have submitted bids worth N\$3.3 billion in the quest to lend to the government through its short-term instruments.

This is in response to a tender invite where the government wanted to borrow N\$1.4 billion through the four treasury bills, namely the 91-day T-bill, 182-day T-bill, 273-day T-bill, and 364-day T-bill.

The government sought N\$370 million through the 91-day T-Bill, instead seeing N\$555.8 million worth of bids during the auction seeking a growth avenue.

However, the government only ended up borrowing what it offered.

Through the 182-day T-bill government wanted the same amount (N\$370 million), and during the auction N\$968,5 million was submitted by the investors.

This made it the most sought-after instrument at this auction.

Again, the government only took the initial offered amount, nothing more.

As for the 237-day T-bill, which is the second-longest short-term debt option of the government, it also received plenty of capital in bidding - N\$903.3 million - even though the government only required N\$370 million.

The 364-day T-bill garnered 37 bids during yesterday's auction, amounting

to N\$890.2 billion. However, the government only accepted the N\$370 million it needed.

This means N\$1.3 billion was unused at this auction, remaining with investors.

This is because all the T-Bills were oversubscribed, with three of them by more than 2 times.

erastus@thevillager.com.na
