

22 January 2026

Onyaanya Constituency

P.O. Box 19247

Omuthiya, Namibia

**TO WHOM IT MAY CONCERN**

Dear Sir/Madam,

**RE: NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR THE PROPOSED CONSTRUCTION AND OPERATION OF THE 20 MEGAWATTS (MW) OF THE SOLAR PLANT & ASSOCIATED INFRASTRUCTURE LOCATED IN OSIPITA, ONYAANYA CONSTITUENCY, OSHIKOTO REGION; NAMIBIA.**

Savannah Environmental Consultant Services CC (the consultant) has been appointed by Tsika Energy (Pty) Ltd (the proponent) to act on their behalf in obtaining an Environmental Clearance Certificate (ECC) for proposed construction and operation of a 20-megawatt (MW) solar photovoltaic (PV) power plant at Osipita Village, within the Onyaanya Constituency of the Oshikoto Region, Namibia.

Tsika Energy (Pty) Ltd (The Proponent) plans to construct and operate a 20-megawatt (MW) solar photovoltaic (PV) power plant at Osipita Village, within the Onyaanya Constituency of the Oshikoto Region. The proposed development (Coordinates: 18°6' 3.139"S; 16°0'0"E) is located at Osipita Village in Onyaanya constituency, see **attached Background Information Document (BID) as an Appendices**, and the proposed development will occupy an area of approximately 68 hectares.

The proposed project forms part of Namibia's broader commitment to increasing the contribution of renewable energy to the national electricity mix, enhancing energy security, and reducing reliance on imported electricity and fossil fuel-based generation. Namibia has one of the highest solar irradiation levels globally, with average daily solar radiation ranging between 5.5 and 6.5 kWh/m<sup>2</sup> across most regions, making solar photovoltaic technology a technically and economically viable option for utility-scale power generation.

Construction of Solar Power Plants and related energy facilities form part of the listed activities that may not be undertaken without an Environmental Clearance Certificate (ECC) as per the 2012 Environmental Impact Assessment (EIA) Regulations of the Environmental Management

Act No. 7 of 2007. As such, Onyaanya Constituency office hereby notified that the application for the ECC together with the Environmental

Scoping Report (ESR) and Environmental Management Plan (EMP) Reports to allow for the construction and operation of a 20-megawatt (MW) solar photovoltaic (PV) power plant at (Osipita Village, within the Onyaanya Constituency of the Oshikoto Region), will be submitted to the Environmental Commissioner.

The Onyaanya Constituency is a key stakeholder for the proposed project and have the right to provide input on the potential impacts (negative and positive) of the proposed project.

If you have any comments, concerns, or inputs related to the proposed project, **please share them with us at the address below.**
