Subject: Schonau Solar Energy Park - ECC Renewals Information Sharing

Importance: High

Dear Sir/Madam,

Good day. The above-mentioned subject refers.

Urban Green Sustainability Consultants (The Environmental Assessment Practitioner) has been appointed by Schönau Solar Energy (PTY) Ltd. (the Proponent) to apply for the Renewal of the attached Environmental Clearance Certificate (ECC-APP3261) for the construction and operation of the proposed Schönau Solar Energy Park, located on a portion of Farm Schönau No. 126, located 60km from //Karasburg within the //Karas Region.

The above is in line with a request from the Department of Environmental Affairs (DEA), to disseminate the Proponent's intention of applying for the Renewal of the Environmental Clearance Certificate (ECC) with the aim to obtain comments and/or feedback, should there be any from the Regional Council (see attached).

Kindly note that this is NOT a public participation process, but rather an information sharing exercise regarding the ECC Renewal, with the aim to obtain comments/questions/concerns or written acknowledgement of the attached letter & documents, by latest Thursday, 05 March 2026.

Should there be concerns received from your institution, those would also be forwarded to the project appointed Environmental Site Manager (ESM) and Resident Engineer (RE), as outlined in the Construction Environmental Management Plan (CEMP), which sets out the methods by which proper environmental controls are currently being implemented and monitored by the Contractor and all other parties involved.

Should you have any further questions, please contact us.

Your feedback/acknowledgement is highly appreciated and valued in this regard. Thank you.

Kind regards

Julia L. Bashir
