Nepal mourns anti-corruption protesters

KATHMANDU - Nepal flew flags at half-mast during a national day of mourning yesterday for the 73 people killed during youth-led anti-corruption protests that toppled the government.

An interim government, which took over after two days of protests last week, declared the day of mourning "in honour of those who lost their lives during the protests", the Ministry of Home Affairs said in a statement.

Protests began on 8 September, sparked by a short-lived ban on social media, but fuelled by anger at corruption and long-standing economic woes.

At least 19 people were killed in a crackdown on the first day.

Anger over the deaths escalated, triggering an outpouring of rage nationwide, with government offices, a Hilton Hotel, and other buildings set on fire. "The changes we are witnessing today would not be possible without the courage and sacrifice of those who gave their lives during the protests," Hami Nepal, a key organisation in the protests, posted on social media.

Prime Minister Sushila Karki (73), a former chief justice, has been tasked with restoring order and addressing protester demands for a corruption-free future ahead of elections in six months.

Karki has declared the victims' martyrs, promising state honours at

their cremations. Candlelit vigils will be held. Shopkeeper Pooja Shrestha (22), said that the day of mourning would bring people together.

"Everyone is sad about what happened, the loss of lives, all young people like us. Things have improved now, and we hope the new government will bring the changes we need," she said.

A fifth of people in Nepal aged 15 to 24 are unemployed, according to the World Bank, with GDP per capita just US\$1 447.

Streets have been back to bustling business since the protests but were quieter on Wednesday because it was declared a public holiday.

But Lokesh Tamang (17), sitting in a gift shop in Kathmandu, kept the store open, hoping for business after it was closed for days during the unrest.

He recalled the "intense" violence and mourned the "sad" deaths of the protesters. "We hope that it doesn't get as bad as it did last week ever again," he said. Police spokesman Binod Kharel said on Wednesday that the death toll from the protests had risen to 73, including police officers and prisoners, as they staged a mass breakout.

More than a third of the 13 500 prisoners who escaped from two dozen jails during the protests have been recaptured or surrendered themselves, he added. -Nampa/AFP

Gazan ill children getting treatment

LONDON - A first group of severely ill children from Gaza has arrived in the UK under a scheme allowing them to receive urgent medical treatment, the British government said yesterday.

A cross-government taskforce has spent weeks coordinating the "complex humanitarian operation" to evacuate the children and their immediate families for specialist care under the state-run National Health Service (NHS), it added.

The World Health Organisation (WHO) said that it had supported the medical evacuations of 10 "critical" children from Gaza to the UK, alongside 50 of their companions.

It comes after Prime Minister Keir Starmer announced in July that his government would launch the scheme for an unspecified number of children hit by the war.

Foreign Secretary Yvette Cooper said in a statement yesterday, welcoming the evacuations, that Gaza's healthcare system has been "decimated" and "hospitals are no longer functioning".

She added the children's arrival "reflects our determined commitment to humanitarian action and the power

of international cooperation".

"We continue to call for the protection of medical infrastructure and health workers in Gaza, and for a huge increase in medicines and supplies to be allowed in," she said.

The evacuees were first taken to Jordan, where they were supported by British Embassy staff and underwent security checks.

The WHO and Jordanian government supported the UK with the transits, alongside a British emergency medical team and NHS clinical staff.

London has not confirmed how many children have arrived, but said more youngsters and their immediate families were expected in the coming weeks.

The government will not provide operational details about their treatment or whereabouts, citing patient confidentiality.

A small number of injured Gazan children have already been brought to Britain under a private programme, Project Pure Hope.

Health Secretary Wes Streeting said it was "a soul-destroying situation that compels us to act". -Nampa/AFP
