Dear Sir/Madam

Re: ENVIRONMENTAL CLEARANCE CERTIFICATE RENEWAL FOR THE OPERATIONS OF  
WESCO WASTE MANAGEMENT, WALVIS BAY, NAMIBIA

Geo Pollution Technologies (Pty) Ltd has been appointed by Wesco Waste Management (Pty) Ltd to apply for renewal of their existing environmental clearance certificate (ECC) for the operations of their waste management facility in Walvis Bay, Namibia. Wesco has been operating a waste oil collection and refining facility for many years. This is coupled with general and other hazardous waste collection, sorting and disposal. The renewed ECC is required as per the Environmental Management Act No. 7 of 2007 (EMA). The accompanying background information document provides information regarding the project and renewal of the ECC. In support of the ECC renewal application, an updated environmental management plan (EMP) will be submitted to the Ministry of Environment, Forestry and Tourism's (MEFT) Directorate of Environmental Affairs (DEA).

The Ministry of Industries, Mines and Energy is hereby notified of the intent to renew the ECC. Please send comments, if any, on the proposed ECC renewal to Geo Pollution Technologies for submission to the MEFT. Please send comments to: E-Mail: [gpt@thenamib.com](mailto:gpt@thenamib.com)

Do not hesitate to contact us for additional information.

Sincerely,

André Faul  
Environmental Practitioner
