RE: Notification of Decision Not to submit proof of notice to local authority

Dear Environmental Commissioner,

We would like to inform you that, considering that this is an application for a renewal, the requested “proof of written notice to the local authority council, regional council and traditional authority, in which the site or alternative site is situated; and consent obtained” does not seem necessary due to the following reasons:

1. An EIA was already conducted for the construction of the fuel retail facility
2. A stakeholder consultation process was already done, all notices were given and consent from the local authority was obtained.

Thank you for your understanding.

Yours sincerely,

Laina Alexander
