

The Chief Executive Officer

Rehoboth Town Council

Rehoboth, Namibia

Date: 9 February 2026

RE: Notification of Proposed 20 MW Solar Photovoltaic Power Plant on Farm Naruchas (Bordering Rehoboth Townlands) – JCM Power Corporation

Dear Sir/Madam,

Augite Environmental Consultants cc hereby formally notifies the Rehoboth Town Council of the proposed development of a **20 MW Solar Photovoltaic (PV) Power Plant** to be established by **JCM Power Corporation** on **Farm Naruchas**, which **borders the Rehoboth Townlands area**.

The proposed solar power plant development footprint is approximately **50 hectares ($\pm 0.5 \text{ km}^2$)**. The development will comprise standard solar PV infrastructure and associated services, including (but not limited to) PV module arrays, inverters and transformers, internal access roads, perimeter security fencing, and grid interconnection components, subject to final engineering design and the relevant authorization processes.

This letter is issued to ensure the Town Council is duly informed of the proposed project due to its proximity to, and potential interface with, the Rehoboth Townlands jurisdiction and municipal planning considerations.

Kindly **acknowledge receipt** of this letter at your earliest convenience (by email or signed acknowledgment), and advise whether the Town Council requires any further project information and/or wishes to nominate a focal person for ongoing liaison.

Should you require any clarification, please contact the undersigned.

Yours faithfully,

Dr Ismael Kanguuehi
