Role:

In my role as a GIS/Spatial Data Analyst for the National Statistics Agency, I was required to work together with other GIS Analysts, collect, analyze and maintain spatial and statistical data for public infrastructure in Namibia. The role often required the training of stakeholders in the Kunene Region on the use of the Namibia Information Systems application that made it easy to access government information through the internet.

## Responsibilities:

- Training of national and regional stakeholders on the use if Nam-Info software;
- Training of regional stakeholders in the use of GIS software for planning purposes;
- Designing and editing of GIS data for numerous public infrastructure in the regions;

- Alignment of public infrastructure data with global standards;
- Monitoring and application of the best industry practices;
- Maintenance of GIS and statistical data's integrity and accuracy;
- Utilization of ArcGIS Desktop and ArcGIS Online in data visualization;
- Development of sustainable systems of collecting and managing data points;
- Managing of necessary hardware and software; and
- Deliverance of training and technical support to end-users

**Sept 2010 – Nov 2011 : STUBENRAUCH PLANNING CONSULTANTS (SPC)**  
 Town and Regional Planner

Role: In the role of Town and Regional Planner at SPC, I was required to prepare town planning applications on behalf of clients that included private individuals, local and regional authorities. The role also included on the training of local authority personnel on the best land use and town planning practices.

Responsibilities:

- Planning Designs and Principles;
- Urban Policy;
- Need and Desirability;
- Land use planning
- Zoning Schemes

**Jan 2012- Mar 2013 : MINISTRY OF URBAN AND RURAL DEVELOPMENT**  
 Town and Regional Planner

Role:

In my role as a Town and Regional Planner at the Ministry of Urban and Rural Development, I was required to assess and recommend town and regional planning applications for approval by the Minister. The role also involved the training of local authority personnel in the countries on the best land use and town planning practices in the country.

Responsibilities:

- Planning Designs and Principles;
- Urban Policy;
- Need and Desirability;
- Land use planning

- Zoning Schemes

---

**Apr 2013- Present : NGHIVELWA PLANNING CONSULTANTS**
