

REPUBLIC OF NAMIBIA
ENVIRONMENTAL MANAGEMENT ACT, 2007
(SECTION 32)

APPLICATION FOR ENVIRONMENTAL CLEARANCE CERTIFICATE

APP 007104

PART A: DETAILS OF APPLICANT

1. **Name:** Maranatha Hatchery Enterprises (Pty) Ltd
2. **Business Registration/Identity No.:** N/A
3. **Correspondence Address:** P.O. Box 12012 Ausspannplatz, Windhoek
4. **Name of Contact Person:** Colin P Namene
5. **Position of Contact Person:** Environmental Assessment Practitioner
6. **Telephone No.:** +264 81 458 4297
7. **Fax No.:** +264 886 157 96
8. **E-mail Address:** namenec@gmail.com

PART B: SCOPE OF THE ENVIRONMENTAL CLEARANCE CERTIFICATE

1. The environmental clearance certificate is for:

Activity 8.1 The abstraction of ground or surface water for industrial or commercial purposes.

Activity 8.2 The abstraction of groundwater at a volume exceeding the threshold authorised in terms of a law relating to water resources.

Activity 8.6 Construction of industrial and domestic wastewater treatment plants and related pipeline systems.

Activity 9.2 Any process or activity which requires a permit, licence or other form of authorisation, or the modification of or changes to existing facilities for any process or activity which requires an amendment of an existing permit, licence or authorisation or which requires a new permit, licence or authorisation in terms of a law governing the generation or release of emissions, pollution, effluent or waste.

2.Details of the activity(s) covered by the environmental clearance certificate:

Note: Please attach plans to show the location and scope of the designated activity(s), and use additional sheets if necessary:

Title of Activity:

Application for an Environmental Clearance Certificate for the Operations of an Existing Rearing and Laying Facility on a Portion of The Remainder of Portion 812 of Farm Stampried 132, Stampriet, Hardap Region

Nature of Activity:

Maranatha Hatchery Enterprises (Pty) Ltd has established a rearing and laying facility operation on a Portion of the reminder of Portion 812 of Farm Stampried 132, located in Stampriet within the Hardap Region of Namibia. The operation is built upon a foundation of clearly defined, physically separated rearing and production phases, a model designed to uphold stringent biosecurity and maintain genetic integrity.

The current breeding stock of approximately 9,940 birds is distributed across dedicated rearing and production houses, which adheres to recognised commercial standards for flock management, nutrition, and health.

Central to the facility's operational control is the integration of the EEGsactly management system, a data-driven platform that enables real-time performance monitoring, production forecasting, and informed decision-making. Furthermore, Maranatha Hatchery Enterprises has implemented a comprehensive risk management framework. This includes robust biosecurity protocols to protect flock health and a strategic dual-supplier contingency plan, involving primary supplier Ross Africa and secondary supplier Sovereign Foods, to safeguard against potential disruptions in the parent stock supply chain. Collectively, these elements establish Maranatha Hatchery Enterprises as a professionally managed, resilient operation capable of supporting consistent production and future growth.

In terms of section 27 of the Environmental Management Act (EMA), 2007 (Act 7 of 2007) listed activities may not be undertaken without an Environmental Clearance Certificate (ECC). The existing operations of the rearing and laying facility require an Environmental Clearance Certificate from the Ministry of Environment, Forestry and Tourism, in particular the Office of the Environmental Commissioner.

In ensuring compliance to the provisions of the EMA, the Proponent has appointed Environam Consultants Trading (ECT) to undertake the process of applying for the ECC on their behalf.

Location of Activity:

a Portion of the remainder of Portion 812 of Farm Stampried 132, Stampriet, Hardap Region

Scale and Scope of Activity:

The scope of this project is limited to applying for an Environmental Clearance Certificate for the operations of a rearing and laying Facility On a Portion of The Remainder of Portion 812 of Farm Stampried 132, Stampriet, Hardap Region. This includes consultations with client; analysis of operations; compilation of an Environmental Management Plan; mitigation formulation; and submission of the EMP and supporting documents, as well as an application for the Environmental Clearance Certificate to the Environmental Commissioner.

PART C: DECLARATION BY APPLICANT

I hereby certify that the particulars given above are correct and true to the best of my knowledge and belief. I understand the environmental clearance certificate may be suspended, amended or cancelled if any information given above is false, misleading, wrong or incomplete.
