Dear Sir/Madam

RE: NOTIFICATION OF ENVIRONMENTAL IMPACT ASSESSMENT AND INVITATION FOR COMMENTS OR SUPPORT ON THE PROPOSED CONSTRUCTION AND OPERATION OF A WHOLESALE FUEL DEPOT IN KATIMA MULILO TOWN, KATIMA URBAN CONSTITUENCY, ZAMBEZI REGION.

We have received and acknowledged the notification dated 16 February 2026 concerning the specified subject matter.

Your notification letter and accompanying documents regarding the proposed development of a fuel depot on portion 113 of Farm Katima Mulilo Townlands No. 1359 have been reviewed. The Council officially acknowledges that this parcel of land has been allocated to Munitenge Fuel Stations CC for development purposes, as reflected in our records.

Based on the above considerations, the Council consents to the use of the land as outlined in the submitted proposal, contingent upon adherence to appropriate town planning regulations. The proposal aligns closely with the intended use of the area and is viewed favorably within the context of the town's development plan. While both potential adverse and beneficial impacts are predicted, this proposal is expected to significantly enhance the provision of essential services, boost employment opportunities, and foster business development in the town. We are confident that the assessment engaged will offer suitable strategies for mitigating the potential negative impacts to realize the project.

We thank you for your engagement and cooperation.

Yours sincerely,

MR. ALBERT SIBEYA

ACTING CHIEF EXECUTIVE OFFICER

NOTIFICATION OF ENVIRONMENTAL IMPACT ASSESSMENTS AND REQUEST FOR A MEETING TO DISCUSS THE DEVELOPMENT PROPOSALS

Namib Consulting Services CC has been engaged by Linx Energy Company Pty Ltd and Munitenge Service Station CC to conduct environmental impact assessments for two respective projects.

1. The Construction of a 20MW Solar Photovoltaic Plant in Liselo Area
2. The Construction and Operation of a Fuel Depot in Katima Mulilo Town.

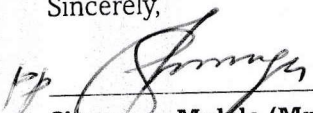

The above proposals must comply with the Environmental Management Act (Act No. 7 of 2007), which mandates obtaining an environmental clearance certificate before commencement. Therefore, Namib Consulting is engaging in consultations with key stakeholders on behalf of the proponents to discuss the proposed activities.

Based on the above, we formally inform your office of the above processes and respectfully request a meeting to discuss these proposals further and to obtain your feedback and comments. Enclosed are the background information documents for preliminary review of the projects.

We kindly ask for a meeting between the dates of 18 to 20 March 2026, with you and relevant officials from your office.

We trust this will be received with consideration.

Sincerely,

Siyamana Mulele (Mr.)

16 February 2026

Dear Honourable Councillor

NOTIFICATION OF ENVIRONMENTAL IMPACT ASSESSMENT AND INVITATION FOR COMMENTS OR SUPPORT ON THE PROPOSED CONSTRUCTION AND OPERATION OF A WHOLESALE FUEL DEPOT IN KATIMA MULILO TOWN, KATIMA URBAN CONSTITUENCY, ZAMBEZI REGION.

Munitenge Service Station CC secured a piece of land for development of a wholesale (bulk) fuel depot in Katima Mulilo. This proposal elicits the requirements of the Environmental Management Act (Act No. 7 of 2007), categorizing the activity as one that necessitates an environmental clearance certificate prior to commencement. Consequently, Namib Consulting Services CC was appointed to fulfil the prerequisites for applying for an environmental clearance certificate with the Ministry of Environment, Forestry and Tourism (MEFT). The prerequisites include conducting consultations with key stakeholders regarding the proposed activity.

Premised on the above background, Namib Consulting is engaging key stakeholders, and your institution has been identified in the public consultation process. We kindly request your institution to provide input and comments based on the attached background document to help guide the successful realization of the project. These comments may be submitted in the form of a letter of support or by completing the attached form included with the background document. Should a face-to-face meeting be necessary for further information, the consulting team is prepared to accommodate such engagement.

To ensure the timely progress of this crucial developmental proposal, the deadline for submitting comments is established as February 25, 2026.

We trust this will be found favourable.

Sincerely,

Siyamana Mulele (Mr.)
