PUBLIC NOTICE

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) FOR PROPOSED SMALL-SCALE COPPER AND SILVER MINING ACTIVITIES IN THE KUNENE REGION

Notice is hereby given in terms of the Environmental Management Act (No. 1 of 2002) and the Environmental Impact Assessment Regulations (GN No. 36 of 2012) that an application for an Environmental Clearance Certificate (ECC) has been submitted to the Ministry of Environment, Forestry and Tourism for the following proposed development:

Project Description

The proponent (Okondjane Mining Investments CC) intends to undertake small-scale mining activities for copper, gold and silver on three mining claims located in the Kunene Region. The proposed activities will include limited site clearing, trenching, pitting, and selective ore extraction using low-impact mining methods.

Project Location

The mining claims are situated in the Kunene Region of north-western Namibia, within a remote and sparsely populated area. They are located between the local village of Ojijana and Otkamas, and lie to the east of the D1705 gravel road.

In terms of regional positioning, the claims are approximately 30 kilometers south-west of Omasas and about 63 kilometers north-west of Swakopmund, placing them within the broader Karibiband geological domain. Access to the site is primarily via the CSM road, from which the claims are located roughly 13 kilometers to the west of Omasas.

The three mining claims collectively cover an area of approximately 56 hectares.

Registration and Comment Period

All stakeholders are invited to submit written comments within 14-21 days from the date of publication of this notice.

Invitation to Stakeholders

All stakeholders, including local communities, land users, authorities, and interested members of the public, are encouraged to participate in the EIA process to ensure that all potential environmental and social impacts are properly considered.

Date of Notice:
 30/04/2025

PUBLIC NOTICE: ENVIRONMENTAL IMPACT ASSESSMENT (EIA) STUDY FOR THE PROPOSED CONSTRUCTION OF A NEW LATTICE (PINE STANDING) TELECOMMUNICATIONS TOWER SITE ON ERP SITE OF BOSTONSON 4 IN RUKUNWURU TOWN, KAUUNDO WEST REGION

The public is notified that an Environmental Clearance Certificate (ECC) application will be submitted to the Environmental Commissioner as required under the Environmental Management Act No. 1 of 2002 and its 2012 EIA Regulations. The proposed project is a telecommunication tower site on ERP Site of Bostonson 4 in Rukunwuru Town, Kauundo West Region.

Project Proponent: Mobile Telecommunications Limited (MTC Namibia)

Environmental Assessment Practitioner: Bepi Hydrogen Environmental Consultants CC

Project Nature and Location: The construction of a 25m high lattice (pine standing) telecommunication tower on ERP Site of Bostonson 4 in Rukunwuru Town, Karungu West Region (also known as Bostonson 4). The proposed site is near the edge of the Transkei Biosphere Reserve (coordinates: 17 48'00" S 18 04'11" E) and about 100m west of the R104 Rukunwuru High School. The site will cover a surface area of about 1400m² (35m by 40m), and will be used to install base antennas and 1x telecommunication tower.

The public is therefore invited to register as Interested and Affected Parties (IAPs) and submit comments, concerns (in writing), or request further information on the EIA Study (such as the Background Information Document (BID)). The deadline for registration and submission of comments, queries, or concerns is **Friday, 25 May 2025**. A **public hearing session will be held in Rukunwuru on Wednesday, 28 April 2025, from 10:00 AM**. Please, **Share/Retweet/Comment** this.
