

**The School Principal
Masida Combined School
Zambezi Region**

15 May 2026

Dear Ms. Lichaba Beauty

Request for input and comments on the proposed Construction of a Telecommunication Tower near Masida Combined School

PowerCom (Pty) Ltd, hereinafter referred to as the proponent, intends to construct a new telecommunication tower in Masida Village in the Linyati Constituency, Zambezi Region. The proposed new telecommunication tower is part of the company's strategic plan to increase network coverage nationwide. The site for the proposed telecommunication tower covers approximately 80 m² (10m × 8m) in extent.

In terms of the Environmental Management Act (Act No.07 of 2007), and Schedule 10 (10.1 (g) the construction of *Communication networks including towers, telecommunication and marine telecommunication lines and cables* cannot be undertaken without any EIA being undertaken.

The proposed telecommunication tower is located next to Masida Combined School, near the School Soccer field (See Locality map attached). As such, we hereby write to obtain input from your school as the owner and occupier of land adjacent to the site where the activity is taking place. The project's Background Information Document (BID) is attached for your perusal.

Should you have further input or comments, kindly forward it to us as soon as possible.

Yours sincerely.
